The American Council on Education (ACE) has announced that it will be publishing a report titled "The Comprehensive Health Training of Health Care Personnel: A National Study." The report will be published in the fall of 1980. It will be the first of a series of reports that will be published by ACE in the next few years. The report will provide a comprehensive overview of the health training of health care personnel in the United States. It will also provide a detailed analysis of the current state of health training and will offer recommendations for improving the quality of health training.
