Current Perspectives on Child

Language Acquisition Caroline F. Rowland, Anna L. Theakston, Ben Ambridge, Katherine E. Twomey, 2020-09-15 In recent years the field has seen an increasing realisation that the full complexity of language acquisition demands theories that a explain how children integrate information from multiple sources in the environment b build linguistic representations at a number of different levels and c learn how to combine these representations in order to communicate effectively These new findings have stimulated new theoretical perspectives that are more centered on explaining learning as a complex dynamic interaction between the child and her environment This book is the first attempt to bring some of these new perspectives together in one place It is a collection of essays written by a group of researchers who all take an approach centered on child environment interaction and all of whom have been influenced by the work of Elena Lieven to whom this collection is dedicated

No Kids Allowed Michelle Ann Abate, 2020-10-13 Children s literature isn t just for children anymore This original study explores the varied forms and roles of children s literature when it s written for adults What do Adam Mansbach s Go the F k to Sleep and Barbara Park s MA There s Nothing to Do Here have in common These large format picture books are decidedly intended for parents rather than children In No Kids Allowed Michelle Ann Abate examines a constellation of books that form a paradoxical new genre children s literature for adults Distinguishing these books from YA and middle grade fiction that appeals to adult readers Abate argues that there is something unique about this phenomenon Principally defined by its form and audience children s literature Abate demonstrates engages with more than mere nostalgia when recast for grown up readers Abate examines how board books coloring books bedtime stories and series detective fiction written and published specifically for adults question the boundaries of genre and challenge the assumption that adulthood and childhood are mutually exclusive

Internationalism in Children's Series K. Sands-O'Connor, M. Frank, 2014-04-08 Internationalism in Children s Series brings together international children s literature scholars who interpret internationalism through various cultural historical and theoretical lenses From imperialism to transnationalism from Tom Swift to Harry Potter this book addresses the unique ability of series to introduce children to the world

Psychological Treatment Approaches for Young Children and Their Families Ingeborg Stiefel, Matthew Brand, Tanya Hanstock, 2024-03-05 Never disappoints A concise authoritative guide this book is a treasure trove and delight to read It provides the reader with an overview of the contemporary early intervention landscape with sufficient detail to allow readers to feel familiar with the key aspects of each approach without overwhelming them with too much new information Alan Carr PhD FPSsI FBPsS Professor of Clinical Psychology UCD and Family Therapist Clanwilliam Institute Ireland Early childhood is the most critical phase in human development Negative influences can contribute to irreversible life long struggles What is learned in the first five years of life becomes the foundation for subsequent learning It is vitally

important that we effectively treat mental health problems when we find them in preschoolers Psychological Treatment Approaches for Children and Their Families provides a comprehensive overview of 14 commonly available therapeutic interventions for children aged 3-5 years It fills an important gap in a field where information about treatment options is limited compared with those suitable for older children and adolescents The interventions presented are evidence based and reflect various research backgrounds and theories of change They are grouped into four sections covering individual child treatments parent focused approaches dyadic carer child interventions and family systems models Each section describes the models in a condensed yet comprehensive summary offering information on its evidence base key concepts stages of therapy session structure treatment effects and training options along with a case study example illustrating the therapy in practice The structure allows the reader to decide what treatments can be used for what presenting problem and under what conditions A set of exercise questions concludes the end of each chapter to encourage better theory practice links The result is a text that provides ample opportunities for students and therapists to develop a knowledge base and understanding of how to best approach the treatment of psychological disorders in this age group Edited and authored by a select group of experienced clinical psychologists and psychiatrists with a particular interest in paediatric clinical psychology this text is relevant for students therapists trainers and supervisors referrers researchers and funding bodies as well as all those undergoing training in disciplines related to child development and clinical child psychology
