**Speech Sound Accuracy Hierarchy:** The goal of this hierarchy is to improve accuracy of speech sounds and ability to combine sounds into different structures.

**\*\*Children may be working in more than one level at once. Also, children may not take these levels in order. Use this as a framework but please customize it to the needs of the child you're working with.**

Level	What it Looks Like	What to Work On
1. Imitating Actions	Child is unable to imitate speech sounds.	Build trust and motivation to imitate actions, start with whole body and move toward mouth
2. Functional Sounds, Sound Effects, Vocalizations	Child is able to imitate actions but unable to imitate or produce sound combinations	Increasing imitation and production of sound effects, functional sounds (like mmm for eating), and vocalizations. Pair sounds with actions and praise any attempts to make sound with the mouth. Provide temptations to make the sounds.
3. Sound Combinations (CV, VC)	Child is able to imitate or produce some sounds but is not yet spontaneously combining 2 sounds, like consonant-vowel or vowel-consonant	Target words that combine one vowel with one consonant. Use these words repeatedly in functional activities at first and then transition to being able to do drill work. Start with a few words and gradually increase number of sounds used and vary their placement (before or after vowel). Once child has several CV or VC words, use one as a carrier phrase and combine together (my ball)
4. Repeated Strings of CV or VC	Child is able to combine a vowel and consonant together but is not yet producing longer utterances	String together repeated CV or VC combos, like mama or mamama. Practice transitional movements of articulators. Once comfortable, add changes to the sequence, like ma ma ma mow or ma mow ma mow
5. Add a Structure, Add a Sound	Child is able to say some limited structures (like CV, VC, and CVCV) but struggles to say longer or more complex words	Teach the child to say a new sound in mastered structures or mastered sounds in new structures: CVC, CCVC, CVCC, CVCV, CVCVC, CCVCV, CVCVCV, CCVCVC, CVCCVC, CVCVCC, CVCVCV, etc. Combine all mastered words together in carrier phrases and single phrases/sentences
6. Sound Accuracy in Phrases and Sentences	Child is able to produce single words of many structures with speech sound accuracy but intelligibility decreases in phrases and sentences	Start with 2-word phrases and build up. Use the same word and build it up into a sentence (see...I see...I see cat...I see the cat)
7. Sound Accuracy in Connected Speech	Child is able to produce sounds correctly in simple sentences and phrases but intelligibility decreases in	Start with long sentences and automatic speech tasks, then move to open-ended questions, reading paragraphs, structured conversation, and

Kaufman, 1995-04-01 Based on years of experience and research, The Kaufman Speech Praxis Test for Children (KSPT) is an innovative new resource that assists in the diagnosis and treatment of developmental apraxia/dyspraxia of speech in preschool children. Developed by Nancy Kaufman, a national authority on verbal dyspraxia, the KSPT identifies the level of breakdown in a child's ability to speak so that treatment can be established and improvement tracked. Easy to administer and score, the test measures a child's imitative responses to the clinician, locates where the child's speech system is breaking down, and points to a systematic course of treatment. Results of the KSPT are useful beyond establishing an initial diagnosis. Gains in motor speech proficiency can be measured and quantified in several ways. Individual sections of the test can be used to establish treatment goals and measure progress. The KSPT includes Manual, Used as a reference, Normative data, Information on the psychometric properties of the test, Clinician's Guide, Set up on the user's desk or table and refer to as the test is being given, Spiral bound format, An overview and section by section instructions on administering and scoring the test, Glossary, Test Booklets, Packages of 25 Used in administering and scoring the test, Space for initial assessment and retest scores, Additional test booklets available. The KSPT Kit comes with one packet of 25 test booklets. Additional test booklets can be ordered. Test booklets come 25 to a package.
