interviews conducted over the course of more than ten years as well as letters unpublished memoirs and documents from recently declassified archives Adam Higginbotham brings the disaster to life through the eyes of the men and women who witnessed it firsthand The result is a riveting deeply reported reconstruction Los Angeles Times and a definitive account of an event that changed history a story that is more complex more human and more terrifying than the Soviet myth The most complete and compelling history yet The Christian Science Monitor Higginbotham s superb enthralling and necessarily terrifying extraordinary The New York Times book is an indelible portrait of the lessons learned when mankind seeks to bend the natural world to his will lessons which in the face of climate change and other threats remain not just vital but necessary
