Woman's Weekly and Lower Middle-Class Domestic Culture in Britain, 1918-1958 Eleanor Reed, 2022-03-23 A unique intersection between periodical and literary scholarship and class and gender history this book showcases a brand new approach to surveying a popular domestic magazine Reading *Woman s Weekly* alongside titles including *Good Housekeeping* *My Weekly* *Peg s Paper*

and Woman's Own and works by authors including Doris Lessing, George Orwell and J.B. Priestley it positions the publication within both the contemporary magazine market and the field of literature more broadly redrawing the parameters of that field as it approaches the domestic magazine as a literary genre in its own right. Between 1918 and 1958 Woman's Weekly targeted a lower middle class readership broadly housewives and unmarried clerical workers on low incomes who viewed or aspired to view themselves as middle class. Examining the magazine's distinctively lower middle class treatment of issues including the First World War's impact on gender, the status of housewives and working women, women's contribution to the Second World War effort and Britain's post-war economic and social recovery, this book supplies fresh and challenging insights into lower middle class culture during a period in which Britain's lower middle classes were gaining prominence and middle class lifestyles were undergoing rapid and radical change. **Infantry**, 1987 *Index-catalogue of the Library ...* Library of the Surgeon-General's Office (U.S.), 1959 **A Dictionary of Slang and Unconventional**

Surviving the Home Front Stuart Hylton, 2012-10-01 Terrifying raids, thousands of bombs and countless petrified inhabitants of Britain's busiest cities. These are the prevailing images of the Blitz and the Home Front in the Second World War. However, for the people who experienced it, it was so much more and affected every aspect of their existence. *Surviving the Home Front* explores through contemporary newspaper reports and advertisements the effect the Blitz had on issues as varied as fashion, food, transport and more. It explores how facets of humanity showed themselves through individual tales of heroism, eccentricity and humour, but above all, Stuart Hylton shows how the irrepressible spirit of the British people overcame a period of harsh austerity combined with the fresh terrors that appeared in their skies almost every night.

Collision of Empires A. D. Harvey, 1993-07-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793-1815. This book is the first to compare these conflicts which together shaped the history of the modern world. A.D. Harvey relates the causes, conduct and outcome of these wars to the fundamental nature of the societies which fought them. Political decisions, economic power and social attitudes interfused with the demands of military technology to determine the outcome of each case. Britain is the centre of focus but is seen against a background of the other combatants. Harvey's ability to make large-scale generalisations is backed up by a wealth of fascinating and carefully documented detail, making this outstanding and exceptionally well-written book a pleasure to read. The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications. By asking new questions and using a range of unfamiliar sources, this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past. **Safeguarding the Public**
