

FIGURE 14.12

Block diagram to be completed for Problem 3.

- (5) Label the hanging wall and footwall on the top and side faces.
 - (6) With Side 1 up, number the beds in order of age, with 1 the oldest. Are the beds at the surface of the upthrown block generally older or younger than those at the surface of the downthrown block? Why?
 - (7) What kind of fault is this?
3. Figure 14.12 is a block diagram showing a fault and a number of folds. The front face of this diagram is perpendicular to the strike of these features, so you can easily measure the dip of the fault and bedding planes where indicated. North is into the page, west and east are marked.
- a. Use a protractor to measure the dip angles along a single fold at points 1 through 5 on the front face of the diagram. Horizontal lines indicate the precise location for each measurement.
- | | | | | |
|----|----|----|----|----|
| 1. | 2. | 3. | 4. | 5. |
|----|----|----|----|----|
- b. A geologist would take strike and dip measurements at convenient outcrops on the surface. Take dip measurements along the front of the block diagram, as close to the surface as possible. Put the appropriate strike and dip symbols in the six white ovals along the top of the diagram, and write each dip measurement in the appropriate spot.
 - c. Draw dashed axial traces for the three folds not cut by a fault. Put them along both the vertical and horizontal surface, and include the appropriate symbol from Figure 14.4.
 - d. What type of fault is illustrated? Be sure the correct map symbol is used to indicate dip. Put arrows on the vertical surface and map symbols on the horizontal surface to indicate the relative sense of motion across the fault.
4. Partially completed block diagrams are shown in Figure 14.13. Using the information provided for each diagram, fill in the blank faces on the blocks and answer the questions.
- a. The vertical column on the front face of Figure 14.13A shows the different rock units encountered in an old oil well.
- (1) Use the available information to help you complete the diagram.
 - (2) What kind of fold is this (anticline, syncline; upright, inclined, overturned, or recumbent; plunging or non-plunging)?
 - (3) Illustrate the position of the axial surface of the fold by sketching its trace on the top and end of the block. (The trace is the imaginary line formed where the axial surface intersects another surface).

Geology Manual Answer Key

Hussin A.Rothana

Geology Manual Answer Key:

Teacher's Manual for All Ye Lands: World Cultures and Geography, , **The Earth Through Time** Harold L. Levin, David T. King, Jr., 2016-06-21 The Earth Through Time 11th Edition by Harold L Levin and David T King chronicles the Earth's story from the time the Sun began to radiate its light to the beginning of civilization The goal of The Earth Through Time is to present the history of the Earth and the science behind that history as simply and clearly as possible The authors strived to make the narrative more engaging to convey the unique perspective and value of historical geology and to improve the presentation so as to stimulate interest and enhance the reader's ability to retain essential concepts long after the final exam The Publishers' Trade List Annual, 1984 Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1962 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December *A Manual of Civil Government for Common Schools* Henry C. Northam, 1890 **Teachers' Manual for Native Americans in Florida** Kevin M. McCarthy, 1999-08 Long before the first European explorers set foot on Florida soil numerous Native American tribes hunted honored their gods built burial mounds and coexisted with one another in pockets of settlements across the state Explores the importance of archaeology in preserving the past for future generations how archaeologists do their work and even how young people can gain hands on experience on a real dig The different types of Indian mounds burial mounds shell middens and platform mounds and their uses are explained as well as Indian languages and reservations Provides detailed descriptions of 185 sites on the Native American Heritage Trail that mark important historical events as well as a calendar of important dates that highlights the history culture setbacks and successes of Florida's Native Americans *Rainforest Restoration Manual for South-Eastern Australia* Bill Peel, 2010-06-15 Rainforest Restoration Manual for South Eastern Australia is the definitive guide to the recovery and restoration of Subtropical Warm Temperate Cool Temperate Gallery Dry Dry Gully and Littoral Rainforests from south eastern Queensland to Tasmania All of these rainforest types were inherently rare prior to settlement and today with depletion feral animals weeds and climate change all are threatened with many listed under state and federal legislation The manual presents detailed restoration methods in 10 easy to follow steps documenting the research and trials undertaken during rainforest restoration over more than two decades These experiments and their results will empower readers to uncover answers to many of the problems they could encounter The manual is supported by a CD that provides important background information with 32 appendices a propagation manual for the region's 735 rainforest plants an illustrated glossary and resources for teachers Species lists and specific planting guides are provided for the 57 rainforest floristic communities that occur from the coast to the mountains between Durras Mountain in New South Wales and the Otways in Victoria Extensively illustrated with colour photographs this book will empower you or your group to be able to restore manage protect and conserve the magnificent rainforests that are in your care The general principles and techniques described will meet the needs of students and teachers novices
