Lair,2011-11-28 Popular representations of the Vietnam War

tend to emphasize violence deprivation and trauma By contrast in *Armed with Abundance* Meredith Lair focuses on the noncombat experiences of U S soldiers in Vietnam redrawing the landscape of the war so that swimming pools ice cream visits from celebrities and other comforts share the frame with combat To address a tenuous morale situation military authorities Lair reveals wielded abundance to insulate soldiers and by extension the American public from boredom and deprivation making the project of war perhaps easier and certainly more palatable The result was dozens of overbuilt bases in South Vietnam that grew more elaborate as the war dragged on Relying on memoirs military documents and G I newspapers Lair finds that consumption and satiety rather than privation and sacrifice defined most soldiers Vietnam deployments Abundance quarantined the U S occupation force from the impoverished people it ostensibly had come to liberate undermining efforts to win Vietnamese hearts and minds and burdening veterans with disappointment that their wartime service did not measure up to public expectations With an epilogue that finds a similar paradigm at work in Iraq *Armed with Abundance* offers a unique and provocative perspective on modern American warfare **Media Promotion & Marketing for Broadcasting, Cable & the Internet** Susan Tyler Eastman,Douglas A. Levin, 1980-07-18 How diverse can and should TV programming be And especially in what precise ways does governmental regulation of TV affect or fail to affect the programs station owners produce programs which in the final analysis shape in such large measure the values of Americans It is to these timely and beguiling questions that Harvey Levin addresses his dispassionate assessment of the complex relationship between government and the TV industry Analyzing data drawn from the history of the FCC s regulatory decisions as well as from interviews with numerous government and industry officials Professor Levin shows how the present form of restrictive governmental regulation almost always results in higher profits and rents for TV stations with no concomitant increase in programming diversity In addition Professor Levin investigates various other aspects of the media market from the particular kinds of crucial decisions that are made when for example a newspaper owns a TV station to the kinds of problems that arise when commercial rents are taxed to fund public TV from the brand of programming we are offered when a monopoly controls a given TV market to the nature of programming in a situation of steady and fair competition Following a comprehensive assessment the author makes a compelling case for diversification of station ownership in order to be safe rather than sorry He also argues for the entry of new stations more extensive support of public TV and some form of quantitative program requirements all of which will help bring about greater program diversity Professor Levin s volume provides us with a fully documented and sharply focused analysis of the theories policies and problems of one of the most powerful and misunderstood of contemporary institutions Media and Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It s no secret today s media landscape is evolving at a fast and

furious pace and students are experiencing these developments firsthand While students are familiar with and may be using the latest products and newest formats they may not understand how the media has evolved to this point or what all these changes mean This is where Media and Culture steps in The eighth edition pulls back the curtain and shows students how the media really works giving students the deeper insight and context they need to become informed media critics
