This book tries to look at human thought and action from a scientific perspective and in the process acquaints the reader with essential concepts about science and its history. It takes a broad look at our present troubles without overlooking some crucial historical, religious, and political causes but places science at the center stage. The author applies what he has learned throughout his career to go beyond science. After an introduction setting the scene and a review of the scientific temper and the inexcusable ignorance of science by some leaders and many followers, the author turns his sharp vision to look at other issues. The most significant challenges are critical and global: climate change caused by our activities, stockpiles of nuclear weapons that are a constant threat, population growth, and increasing inequality at all levels. These problems do have a profound ethical character and threaten to end forever with our misery, producing a catastrophic convergence. Written with rigor for all readers, with many references and infused with relevant quotations, the author's message is clear: we need to change our ways drastically and urgently now or never. But he offers not much in terms of a solution, something done by many authors to sweeten the pill, because as he argues, beyond lofty declarations, there is no real solution as the clock runs down, leading to his dystopian view of the future.

Last Call for the African-American Church Chester Williams, 2014-12-24
Last Call for the African American Church revisits the commandment Jesus left his followers to proclaim the gospel worldwide until his return, one that by all accounts is no longer a priority in the contemporary African American church. Despite the presence of euphoric praise and worship celebrations and the proliferation of diverse ministries, it advertises as cutting edge, the implosion of missions has occurred in this church's pulpits and pews. Selected biblical foundations of missions are provided for those new to the parlance and for others needing a refresher course. Along with conventional missions distinctions, Chester Williams logs some concepts in the glossary he himself has constructed for readers and for collegial review. They include the feminization of missions, rummage sale missions, missions without Jesus, and window dressing missions. For the most part, these concepts represent a radical departure from apostolic missions and are viewed as biblical tinkering and convoluted, most importantly as obstructions to the Great Commission world harvesting.

□ *The 12 Commandments — Humanity's Last Call* Adriano Leonel, 2025-06-30
The 12 Commandments
Humanity's Last Call
Attention Silence everything around you
Something eternal is about to happen
This book is not a suggestion
It is a divine call
A cry from God amidst the noise of a generation that has stopped listening
You may think you clicked here by chance but know this no step is random when heaven decides to intervene
The 12 Commandments
Humanity

s Last Call is more than a book it is a mirror of your soul a direct confrontation with what you have become and with who you should be There is no room here for half truths for lukewarm gospel for fake religiosity Each word was forged with pain prayer tears and truth This book was written with a torn soul with the conviction that there are lives at stake there are eternities being decided right now as you read these lines Within these pages you will find A brutal portrait of today s world immersed in sin indifference and mockery of God A return to forgotten commandments now revealed in a living impactful way in flesh spirit and blood Reflections that will make you cry repent tremble fall to your knees and perhaps for the first time understand how much God loves you and how much you have been running away from Him An urgent call to repentance baptism confession and a change of life This book was not written to please you It was written to save you It doesn t matter if you are a pastor a new convert an atheist or someone who has already forgotten what it means to fear God If you are still breathing there is still time But time is running out Mercy is still available but the clock is ticking Read this book Read it with an open heart with a naked soul as if it were the last message you will receive before eternity Because it might be
