Written by industry authority Charles H. Green, *Banker's Guide to New Small Business Finance* explains how a financial bust from one perfect storm, the real estate bubble and the liquidity collapse in capital markets, is leading to a boom in the market for innovative lenders that advance funds to small business owners for growth. Through a discussion of the developing field of crowdfunding and the cottage industry that is quickly rising around the ability to sell business equity via the Internet, *Banker's Guide to New Small Business Finance* covers how small businesses are funded, capital market disruptions, the paradigm shift created by Google, Amazon and Facebook, private equity in search of ROI, lenders, funders and places to find money, digital lenders, non-traditional funding, digital capital brokers and much more. Covers distinctive ideas that are challenging bank domination of the small lending marketplace. Provides insight into how each lender works as well as their application, grid pricing model and management outlook. Offers suggestions on how to engage or compete with each entity as well as contact information to call them directly.
