Phivos Mylonas, Dimitris Kardaras, Jaime Caro, 2024-10-15 This book compiles the research findings presented at the 4th International Conference on Novel Intelligent Digital Systems NiDS 2024 which took place in Athens Greece on September 25-27 2024 hosted by the University of West Attica NiDS 2024 was conducted in a hybrid format offering participants the flexibility to join either online or in person The conference highlighted the latest innovations in intelligent systems and emphasized the collaborative research that advances Artificial Intelligence AI in software development It served as a platform for high quality research providing a space to explore challenges and innovations in AI NiDS 2024 referred to experts researchers and scholars in artificial and computational intelligence as well as the broader field of computer science offering

insights into interconnected and complementary areas By promoting the exchange of ideas the conference aimed to strengthen and expand the network of researchers academics and industry professionals *Advances in Aerospace Guidance, Navigation and Control* Bogusław Dołęga, Robert Głębocki, Damian Kordos, Marcin Żugaj, 2017-12-15 The first three CEAS Council of European Aerospace Societies Specialist Conferences on Guidance Navigation and Control CEAS EuroGNC were held in Munich Germany in 2011 in Delft Netherlands in 2013 and in Toulouse France in 2017 The Warsaw University of Technology WUT and the Rzeszow University of Technology RzUT accepted the challenge of jointly organizing the 4th edition The conference aims to promote scientific and technical excellence in the fields of Guidance Navigation and Control GNC in aerospace and other fields of technology The Conference joins together the industry with the academia research This book covers four main topics Guidance and Control Control Theory Application Navigation UAV Control and Dynamic The papers included focus on the most advanced and actual topics in guidance navigation and control research areas Control theory analysis and design Novel navigation estimation and tracking methods Aircraft spacecraft missile and UAV guidance navigation and control Flight testing and experimental results Intelligent control in aerospace applications Aerospace robotics and unmanned autonomous systems Sensor systems for guidance navigation and control Guidance navigation and control concepts in air traffic control systems For the 4th CEAS Specialist Conference on Guidance Navigation and Control the International Technical Committee established a formal review process Each paper was reviewed in compliance with good journal practices by independent and anonymous reviewers At the end of the review process papers were selected for publication in this book *Aviation and Its Management* Arif Sikander, 2019-05-22 Aviation has grown leaps and bounds within the last decade Aviation courses and training at all levels have shown an exponential increase around the globe There has been a restricted focus on writing books in this sector of the economy mainly due to the shortage of expertise in this specialist and complex area This book was written with the purpose of meeting this need of the aviation sector Due to the diversified nature of aviation knowledge which includes flying engineering airports allied trades for aircraft and airports airline and airport management and operations education etc one text alone will not suffice and do justice to address all these areas It is envisaged to develop subsequent parts of this book to cover all these knowledge areas This book is the first installment of any subsequent books and explores issues including airline management and operations airline business models airport systems flight operational procedures aircraft maintenance runway safety management systems and air traffic management In particular attention will be given to aspects such as analysis of air traffic in a domestic market runway safety management systems critical success factors for multiple MRO service providers key pain points of the industry to be addressed to move into the future new research on hub airports for international flights new business models for airlines and runway safety management systems This book is useful to aviation managers educators students and professionals interested in any of the above issues **Sully's Challenge: "Miracle on the Hudson" - Official Investigation & Full Report of**

the Federal Agency National Transportation Safety Board, 2024-01-15 In *Sully's Challenge: Miracle on the Hudson* Official Investigation Full Report of the Federal Agency the National Transportation Safety Board meticulously presents an exhaustive account of the 2009 emergency landing of US Airways Flight 1549 on the Hudson River. This book is a factual chronicle that intricately details the investigative process incorporating eyewitness accounts, cockpit recordings, and expert analyses. Its literary style is formal yet accessible, designed to impart critical insights not only for aviation specialists but also for the general public, thereby placing the event in the broader context of aviation safety and human perseverance. The NTSB, an independent federal agency that conducts thorough investigations into transportation incidents, draws upon an extensive history of invaluable lessons learned from prior aviation mishaps. By systematically examining the factors that contributed to the successful water landing orchestrated by Captain Chesley Sully Sullenberger, the report serves as a pivotal case study in both pilot decision making and crisis management, showcasing the agency's commitment to transparency and safety improvement. *Sully's Challenge* is essential reading for aviation enthusiasts, students of safety protocol, and anyone seeking inspiration from stories of crisis averted. It not only documents a remarkable event in modern history but also highlights the importance of preparedness and decisive action in life-threatening situations. Vahid Paez, 2021-08-03 The importance of good documentation can build a strong foundation for any thriving organization. This reference text provides a detailed and practical treatment of technical writing in an easy-to-understand manner. The text covers important topics including neuro-linguistics programming, NLP, experimental writing, and technical writing, and unity of effect, five elements of communication, process, human information processing, nonverbal communication, and types of technical manuals. Aimed at professionals and graduate students working in the fields of ergonomics, aerospace engineering, aviation industry, and human factors, this book provides a detailed and practical treatment of technical writing. Discusses several personal anecdotes that serve as real work examples. Explores communications techniques in a way that considers the psychology of what works. Discusses in an easy-to-understand language stories and examples of the correct steps to create technical documents. *Smarter, Faster, Better*

Charles Duhigg, 2016-03-08 NEW YORK TIMES BESTSELLER The author of *The Power of Habit* and *Supercommunicators* and master of the life hack *GQ* explores the fascinating science of productivity and offers real-world takeaways to apply to your life, whether you're chasing peak productivity or simply trying to get back on track. Duhigg melds cutting-edge science, deep reporting, and wide-ranging stories to give us a fuller, more human way of thinking about how productivity actually happens. Susan Cain, author of *Quiet*. In *The Power of Habit*, Pulitzer Prize-winning journalist Charles Duhigg explained why we do what we do. In *Smarter, Faster, Better*, he applies the same relentless curiosity and rich storytelling to how we can improve at the things we do. At the core of *Smarter, Faster, Better* are eight key concepts from motivation and goal setting to focus and decision making that explain why some people and companies get so much done. Drawing on the latest findings in neuroscience, psychology, and behavioral

economics as well as the experiences of CEOs educational reformers four star generals FBI agents airplane pilots and Broadway songwriters this book reveals that the most productive people companies and organizations don t merely act differently They view the world and their choices in profoundly different ways Smarter Faster Better is a story filled exploration of the science of productivity one that can help us learn to succeed with less stress and struggle and become smarter faster and better at everything we do *HCI International 2020 - Late Breaking Papers: Cognition, Learning and Games* Constantine Stephanidis,Don Harris,Wen-Chin Li,Dylan D. Systems Thinking in Practice Neville A. Dr. Stanton, Paul Dr. Salmon, Guy H. Dr. Walker, 2018-09-03 This book presents the latest developments of Systems Thinking in Practice to the analysis and design of complex sociotechnical systems The Event Analysis of Systemic Teamwork EAST method is applied to micro meso and macro systems Written by experts in the field this text covers a diverse range of domains including automation aviation energy grid distribution military command and control road and rail transportation sports and urban planning Extensions to the EAST method are presented along with future directions for the approach Illustrates a contemporary review of the status of Distributed Cognition DCOG Presents examples of the application of Event Analysis of Systemic Teamwork EAST method Presents examples of the application of Event Analysis of Systemic Teamwork EAST method Discusses the metrics for the examination of social task and information networks Provides comparison of alternative networks with implications for design of DCOG in systems **Generative Systems and Intelligent Tutoring Systems** Sabine Graf, Angelos Markos, 2025-07-28 This book constitutes the refereed proceedings of the 21st International Conference on Intelligent Tutoring Systems ITS 2025 held in Alexandroupolis Greece during June 2 6 2025 The 21 full papers 27 short papers and 5 posters included in this book were carefully reviewed and selected from 67 submissions The papers are organized in the following topical conference tracks Part I Generative Tutoring Systems The goal of this part is to show how new techniques inspired by artificial intelligence AI and new methods in education can improve learning teaching and generate the capacity for knowledge acquisition and much more Part II Application areas environments and techniques for AI systems This part shows the progress of research investigating the different application areas such as education health techniques such as neural networks data mining natural language processing and environments such as games virtual reality cognitive robots for effective AI systems A320 Airbus Industrie, 1989 The True Story of the "Miracle on the Hudson" National Transportation Safety Board, 2022-11-13 In *The True Story of the Miracle on the Hudson* the National Transportation Safety Board meticulously documents the flight of US Airways Flight 1549 which famously executed an emergency landing in the Hudson River on January 15 2009 Blending detailed technical analysis with gripping narrative the book explores the events leading up to the incident the critical decision making processes of the flight crew and the subsequent rescue efforts Its literary style balances a formal investigation tone with accessible storytelling making it an essential study within the context of aviation safety literature and emergency response protocols The National Transportation Safety Board NTSB an independent U S government agency dedicated to civil transportation accident investigation has been at the forefront of aviation safety enhancement since its inception in 1967 By compiling firsthand accounts investigative findings and technical data the NTSB aims to uncover systemic issues cultivating a deeper understanding of both human and mechanical factors that contribute to aviation accidents This publication reflects the NTSB's commitment to preventing future tragedies through education and transparency This book is highly recommended for aviation enthusiasts safety professionals and general readers alike By

illustrating the intricate interplay of human skill technology and fleet safety procedures the NTSB not only honors the heroism displayed during the crisis but also emphasizes the importance of learning from such events to enhance future safety protocols

A Philosophy of Technology Peter Vermaas, Peter Kroes, Ibo van de Poel, Maarten Franssen, Wybo Houkes, 2022-05-31 In *A Philosophy of Technology From Technical Artefacts to Sociotechnical Systems* technology is analysed from a series of different perspectives The analysis starts by focussing on the most tangible products of technology called technical artefacts and then builds step wise towards considering those artefacts within their context of use and ultimately as embedded in encompassing sociotechnical systems that also include humans as operators and social rules like legislation Philosophical characterisations are given of technical artefacts their context of use and of sociotechnical systems Analyses are presented of how technical artefacts are designed in engineering and what types of technological knowledge is involved in engineering And the issue is considered how engineers and others can or cannot influence the development of technology These characterisations are complemented by ethical analyses of the moral status of technical artefacts and the possibilities and impossibilities for engineers to influence this status when designing artefacts and the sociotechnical systems in which artefacts are embedded The running example in the book is aviation where aeroplanes are examples of technical artefacts and the world aviation system is an example of a sociotechnical system Issues related to the design of quiet aeroplane engines and the causes of aviation accidents are analysed for illustrating the moral status of designing and the role of engineers therein
