Published By The Math Notion www.mathnotion.com **Congressional Record** United States. Congress,2001 *Illiterate America* Jonathan Kozol,1986-03-01 It is startling and it is shaming in a country that prides itself on being among the most enlightened in the world 25 million American adults cannot read the poison warnings on a can of pesticide a letter from their child s teacher or the front page of a newspaper An additional 35 million read below the level needed to function successfully in our society The United States ranks forty ninth among 158 member nations of the UN in literacy and wastes over 100 billion annually as a result The problem is not merely an embarrassment it is a social and economic disaster In *Illiterate America* Jonathan Kozol author of National Book Award winning *Death at an Early Age* addresses this national disgrace Combining hard statistics and heartrending stories he describes the economic and the human costs of illiteracy Kozol analyses and condemns previous government action and inaction and in a passionate call for reform he proposes a specific program to conquer illiteracy One out of every three American adults cannot read this book which is why everyone else must

AFHRL-TR. Air Force Human Resources Laboratory,1968 **Math Mutation Classics** Erik Seligman,2016-04-22 Use math in unique ways to analyze things you observe in life and use proof to attain the unexpected There is quite a wide diversity of topics here and so all age levels and ability levels will enjoy the discussions You ll see how the author s unique viewpoint puts a mathematical spin on everything from politicians to hippos Along the way you will enjoy the different point of view and hopefully it will open you up to a slightly more out of the box way of thinking Did you know that sometimes 2×2 equals 5 That wheels don t always have to be round That you can mathematically prove there is a hippopotamus in your basement Or how to spot four dimensional beings as they pass through your kitchen If not then you need to read this book *Math Mutation Classics* is a collection of Erik Seligman s blog articles from Math Mutation at MathMutation.com Erik has been creating podcasts and converting them in his blog for many years Now he has collected what he believes to be the most interesting among them and has edited and organized them into a book that is often thought provoking challenging and fun What You Will Learn View the world and problems in different ways through math Apply mathematics to things you thought unimaginable Abstract things that are not taught in school Who this Book is For Teenagers college level students and adults who can gain from the many different ways of looking at problems and feed their interest in mathematics **Performing Math** Andrew Fiss,2020-11-13 *Performing Math* tells the history of expectations for math communication and the conversations about math hatred and math anxiety that occurred in response Focusing on nineteenth century American

colleges this book analyzes foundational tools and techniques of math communication the textbooks that supported reading aloud the burnings that mimicked pedagogical speech the blackboards that accompanied oral presentations the plays that proclaimed performers identities as math students and the written tests that redefined student performance Math communication and math anxiety went hand in hand as new rules for oral communication at the blackboard inspired student revolt and as frameworks for testing student performance inspired performance anxiety With unusual primary sources from over a dozen educational archives *Performing Math* argues for a new performance oriented history of American math education one that can explain contemporary math attitudes and provide a way forward to reframing the problem of math anxiety
