Asymmetric Crisis in Europe and Possible Futures Johannes Jäger, Elisabeth Springler, 2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics

Taken For A Ride Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed Taken for a Ride reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality the urban experience in developing countries and the failure to locate

the agency of the urban poor within their economic and political structures It is both a contribution and a call for the contextualised study of actually existing neoliberalism

America's Moment: Creating Opportunity in the Connected Age Rework America,2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America s Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone

A Global Idea Mayssoun Sukarieh,2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere

Horses, Power and Place Neil Ward,2023-12-05 Horses Power and Place explores the evolution of humanity s relationship with horses from early domestication through to the use of the horse as a draught animal an agricultural industrial and military asset and an animal of sport and leisure Taking an historical approach and using Britain as a case study this is the first book length exploration of

the horse in the more than human geography of a nation It traces the role and implications of horse based mobility for the evolution of settlement structure urban morphology and the rural landscape It maps the growth and various uses of horses to the point of peak horse in the early twentieth century before considering the contemporary place of the horse in twenty first century economy and society It assesses the role of the horse in the formation of places within Britain and in the formation of the nation The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies It argues for the study of animals in general in how places are made not just by humans Written in a clear and accessible style this book will be essential reading for students and scholars of animal geography and animal studies more widely

The Chinese City Weiping Wu, Piper Gaubatz, 2020-11-29 Drawing on years of research experience and keen observations of the triumphs and problems in China's cities the authors provide a foundational understanding of China's urbanization and cities that is grounded in history and geography and challenges readers to consider Chinese urbanization through multiple disciplinary and thematic lenses This book is anchored in the spatial sciences including geography urban studies urban planning and environmental studies It offers a comprehensive survey of the evolving urban landscape covering such topics as history and patterns of urbanization spatial and regional context models of urban form economic and social spatial transformation urbanism and cultural dynamics housing and land development environmental and infrastructure issues poverty and inequality and challenges of urban governance The book highlights both parallels and substantive differences between China and comparable cities and countries elsewhere given that some urban conditions around the world converge and point to shared catalysts e.g. internal migration and globally linked processes e.g. climate change It explores the consequences of the demographic economic social and environmental transitions on cities and urban dwellers Illustrated case studies in each chapter ground the discussion and introduce readers to the diversity of cities and urban life in China Most chapters also can be used as stand alone course materials with suggested references for further reading

Moore, 2019-11-15 In a dramatic

unveiling of the little known world of contracted military logistics Adam Moore examines the lives of the global army of laborers who support US overseas wars Empire s Labor brings us the experience of the hundreds of thousands of men and women who perform jobs such as truck drivers and administrative assistants at bases located in warzones in the Middle East and Africa He highlights the changes the US military has undergone since the Vietnam War when the ratio of contractors to uniformed personnel was roughly 1 6 In Afghanistan it has been as high as 4 1 This growth in logistics contracting represents a fundamental change in how the US fights wars with the military now dependent on a huge pool of contractors recruited from around the world It also Moore demonstrates has social economic and political implications that extend well beyond the battlefields Focusing on workers from the Philippines and Bosnia two major sources of third country national TCN military labor Moore explains the rise of large scale logistics outsourcing since the end of the Cold War describes the networks infrastructures and practices that span the spaces through which people information and goods circulate and reveals the experiences of foreign workers from the hidden dynamics of labor activism on bases to the economic and social impacts these jobs have on their families and the communities they hail from Through his extensive fieldwork and interviews Moore gives voice to the agency and aspirations of the many thousands of foreigners who labor for the US military Thanks to generous funding from UCLA and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories

State against Civil Society Cameron Ross, 2017-10-02 Over the period December 2011 July 2013 a tidal wave of mass protests swept through the Russian capital and engulfed scores of cities and regions These demonstrations came as a great shock to the Russian political establishment After decades of passive acceptance of the status quo it appeared that civil society was at last awakening The protests came in the wake of the Arab Spring revolts which toppled authoritarian dictators in Tunisia Egypt and Libya However by the end of 2013 the number of mass protests in Russia and their size had declined precipitously President Putin on returning to office in 2012 had quickly regained the upper hand over the protestors This book examines the reasons for the rise and fall of the mass protests in the Russian Federation Internationally renowned experts in the field of Russian politics from Russia and the UK provide important new insights into the nature of the mass opposition movement the non systemic opposition its strengths and its weaknesses A key novel aspect of the study is its focus on the national and regional dimensions of the protest movement and its class and ethnic dimensions This book was published as a special issue of Europe Asia Studies

An Endogenous Theory of Property Rights Peter Ho, 2018-10-15 From a neo liberal neo classical paradigm secure formal and private property rights are crucial to fostering sustained development Institutions that fail to respond to shifting socio economic opportunities are thus forced to make new arrangements The enigma is posed by developments on the ground Why would the removal of authoritarian institutions during the Arab Spring or Iraq War not increase market efficiency but rather cause the reverse while China and India despite persisting insecure informal and

common institutions featured sustained growth This collection posits that understanding these paradoxes requires a refocusing from form to function detached from normative assumptions about institutional appearance In so doing three things are accomplished First starting from case studies on land it is ascertained that the argument can be meaningfully extended to labour capital and beyond Second the argument validates the Credibility Thesis that is once institutions persist they fulfil a function Third the collection studies development broadly construed by including the modes of production and beyond the rural and urban the developed and developing This is why it reviews property rights from China and India to Turkey Mexico and Malaysia covering issues such as customary rights and privatization mining and pastoralism dam building and irrigation but also state owned banks trade unions and notaries This book was originally published as a special issue of *The Journal of Peasant Studies* *The Power of Geography (RLE Social & Cultural Geography)* Jennifer Wolch, Michael Dear, 2014-01-23 This book illuminates the profound influence of geography on everyday life Concentrating on the realm of social reproduction gender family education culture and tradition race ethnicity the contributors provide both an articulation of a theory of territory and reproduction and concrete empirical analyses of the evolution of social practices in particular places At the core of the book's contribution is the concept of society as a time space fabric upon which are engraved the processes of political economic and socio cultural life A second distinctive feature of the book is its substantive focus on the relation between territory and social practice Thirdly it represents a significant step in the redefinition of the research agenda in human geography **An Archaeology of Structural Violence** Michael P. Roller, 2018-10-17 Brilliantly underscores how the manifestations of modern alienation and social inequality must be at the center of any truly anthropological analysis in the twenty first century This fantastic volume makes us comprehend the immense complexities of violent modernity and will compel us to critically interrogate our past our present and our future Daniel O Sayers author of *A Desolate Place for a Defiant People* *The Archaeology of Maroons Indigenous Americans and Enslaved Laborers in the Great Dismal Swamp* Drawing on material evidence from daily life in a coal mining town this book offers an up close view of the political economy of the United States over the course of the twentieth century This community's story illustrates the great ironies of this era showing how modernist progress and plenty were inseparable from the destructive cycles of capitalism At the heart of this book is one of the bloodiest yet least known acts of labor violence in American history the 1897 Lattimer Massacre in which 19 striking immigrant mineworkers were killed and 40 more were injured Michael Roller looks beneath this moment of outright violence at the everyday material and spatial conditions that supported it pointing to the growth of shanty enclaves on the periphery of the town that reveal the reliance of coal companies on immigrant surplus labor Roller then documents the changing landscape of the region after the event as the anthracite coal industry declined as well as community redevelopment efforts in the late twentieth century This rare sustained geographical focus and long historical view illuminates the rise of soft forms of power and violence over workers citizens and consumers between the late 1800s

and the present day Roller expertly blends archaeology labor history ethnography and critical social theory to demonstrate how the archaeology of the recent past can uncover the deep foundations of today's social troubles Michael P Roller is a research affiliate of the Anthropology Department of the University of Maryland Currently he is employed as an archaeologist for the National Park Service A volume in the series Cultural Heritage Studies edited by Paul A Shackel *Brexit and After* Kumiko Haba, Martin Holland, 2020-12-12 This book makes a new departure from others on the subject Not only does it analyze Brexit from the domestic point of view in the UK democracy social analysis and construction of new institutionalization with the EU it extends the analysis externally and reconsiders the EU and UK relationship with Asia and the implications for international relations and a new world order From this foundation this book presents a broad and diverse spectrum of views concerning Brexit and the EU For these reasons it serves as an original and excellent textbook for undergraduate and graduate students as well as for researchers of the EU and international relations Contributions to this volume are from the European Union Studies Association EUSA Asia Pacific Tokyo Conference and affiliated conferences at the following universities between 2017-19 Aoyama Gakuin University Tokyo Taiwan National University Taipei and Fudan University Shanghai Almost all of the authors have engaged in interdisciplinary research on the EU are members of the EUSA Asia Pacific and have made public presentations on Brexit and how it relates to the EU Asia international relations economics and institutions Therefore this book presents various aspects of Brexit and its aftermath from the perspectives of the disciplines of political science economics and international relations in its analysis of the UK the EU Asia and the future world order The EUSA Presidents and executive committee members participated in the Asia Pacific Conference postgraduate student workshops were organized and their presentations moderated thereby guaranteeing both the quality of the contributions to this book as well as encouraging young talented scholars to write about Brexit and the EU While many books on Brexit have been published this book offers many new and perspectives that provide suggestions for possible solutions to the problems facing the UK and the EU after Brexit
