the Acquisition of Professional Language and Culture Ping Deters,2011-07-21 This unique work analyzes the crisis in modern society building on the ideas of the Frankfurt School thinkers Emphasizing social evolution and learning processes it argues

that crisis is mediated by social class conflicts and collective learning the results of which are embodied in constitutional and

public law First the work outlines a new categorical framework of critical theory in which it is conceived as a theory of crisis

It shows that the Marxist focus on economy and on class struggle is too narrow to deal with the range of social conflicts

within modern society and posits that a crisis of legitimization is at the core of all crises It then discusses the dialectic of

revolutionary and evolutionary developmental processes of modern society and its legal system This volume in the Critical

Theory and Contemporary Society by a leading scholar in the field provides a new approach to critical theory that will appeal

to anyone studying political sociology political theory and law *ONTERIS Abstracts* Ontario. Ministry of Education,1978
