Japan's Defense Engagement in the Indo-Pacific Nanae Baldauff, 2024-07-17 This original book systematically examines Japan's defense engagement with its strategic partners since the end of the Cold War based on Japan's national security strategy The author maps three defense engagement activities military exercises capacity building and defense equipment transfer and technology cooperation and subsequently evaluates these against the three national security objectives deterrence cooperative security and the Free and Open Indo Pacific vision The book asks two important research questions why is Japan active in defense engagement with the armed forces of its strategic partners And what purposes do Japan's self defense forces pursue Through the ten carefully selected cases of strategic partners Australia India Indonesia Vietnam the Philippines ASEAN the UK France NATO and the EU the book follows a structured cross case comparison based on the analytical framework developed for the research It also discusses the evolution of Japan's postwar defense policy providing a solid background for the case studies The book overall argues that while the Japan US alliance is still the most indispensable Japan's strategic partnerships are a valuable instrument of deterrence that contributes to Japan's national security objectives In order to more effectively pursue these objectives and thus secure the national interest Japan must pursue a purpose driven defense engagement *Universities, Sustainability and Society: Supporting the Implementation of the Sustainable Development Goals* Walter Leal Filho, Amanda Lange Salvia, Luciana Brandli, Ulisses M. Azeiteiro, Rudi Pretorius, 2021-05-03 In order to yield the expected benefits sustainability initiatives need to be undertaken by means of a close cooperation between universities on the one hand and societal partners on the others The principle of co creation and co execution of sustainability initiatives increases the value for all by mutual learning and the sharing of expertise and resources But pursuing sustainability initiatives with a community and societal involvement is not simple There is a perceived need for a better understanding of how universities can interact with society in order to support the implementation of the UN Sustainable Development Goals This book is an attempt to address this need by a novel approach which focuses on current potentials and challenges across a wide range of fields and expertise The book focuses on how the theory and

practice of sustainable development interact and shows the need for a continuation of the dialogue among sustainability academics and practitioners so as to address the issues matters and problems at hand The spectrum of themes addressed on this book also entails how environmental values and ethics are applied and the relationship between social biological and cultural diversity It also includes a broad disciplinary approach to sustainability including education research and case studies and the links with human environment relations in a sustainable development context **The Politics of Spiritual**

Work in Christian Movements Aini Linjakumpu, 2025-08-06 This book examines how three conservative Christian movements Jehovah's Witnesses Conservative Laestadians and the Old Order Amish attribute spiritual meanings to both paid employment and voluntary work and how work functions as a tool of governance within these communities A central concept developed in this book is spiritual work used to describe forms of labour imbued with religious meaning and purpose This book offers a detailed analysis of how religious interpretations of work regulate members' lives and sustain internal power dynamics By tracing both the theological roots and social consequences of these interpretations the study demonstrates that work is not merely an economic necessity but a central component of the moral and spiritual order within these movements Framed by perspectives from the study of power and governance this book identifies three key dimensions through which governance operates via work shaping individual spirituality reinforcing communal belonging and cohesion and regulating the boundary between the religious community and the outside world **The United States Department of Defense Law**
