Hitchcock's Music Jack Sullivan, 2020-08-11 A wonderfully coherent comprehensive groundbreaking and thoroughly engaging study of how the director of Psycho and The Birds used music in his films Sidney Gottlieb editor of Hitchcock on Hitchcock Alfred Hitchcock employed more musical styles and techniques than any film director in history from Marlene Dietrich singing Cole Porter in

Stage Fright to the revolutionary electronic soundtrack of *The Birds*. Many of his films including *Notorious*, *Rear Window*, *Vertigo*, *North by Northwest* and *Psycho* are landmarks in the history of film music. Now author and musicologist Jack Sullivan presents the first in depth study of the role music plays in Hitchcock's films. Based on extensive interviews with composers, writers and actors as well as archival research, Sullivan discusses how Hitchcock used music to influence his cinematic atmospheres, characterizations and even storylines. Sullivan examines the director's relationships with various composers, especially Bernard Herrmann, and tells the stories behind some of their now iconic musical choices. Covering the entire director's career from the early British works up to *Family Plot*, this engaging work will change the way we watch and listen to Hitchcock's movies.

We Sang and Whistled Then John H. Evans, 2021-02-15 There is a magic to music, a feeling created that removes one from the humdrum constraints of everyday life to a wonderful, make-believe world where, as famous lyricist E. Y. Harburg put it in *Over the Rainbow*, troubles melt like lemon drops and dreams really do come true. In this book, you'll meet the men of the early twentieth century who wrote the most wonderful creative music the world has ever known. Their music was matched by the brilliance of the lyricists who were indeed the poets of the modern age. These men created a superb anthology of popular music, a canon that today is justifiably known as the Great American Songbook.

The Encyclopedia of Film Composers Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers such as Henry Mancini, Randy Newman, and John Williams have become household names. *The Encyclopedia of Film Composers* features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes biographical material, important dates, career highlights, analysis of the composer's musical style, complete list of movie credits. This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, *The Encyclopedia of Film Composers* will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.
