National Security Council Report 13:

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

Terrorism: Documents of International and Local Control: 1st Series Index 2009 Douglas Lovelace, 2009-08-27 Although each main set volume of Terrorism 1st Series contains its own volume specific index this comprehensive Index places all the Index info from the last fifty main set volumes into one index volume Furthermore the volume specific indexes are only subject indexes whereas five different indexes appear within this one comprehensive index the subject index an index organized according to the title of the document an index based on the name of the document s author an index correlated to the document s year and a subject by year index This one all encompassing Index thus provides users with multiple ways to conduct research into four years worth of Terrorism 1st Series volumes

The Republic of Azerbaijan in the United Nations Security Council 2012 / 2013 Agshin Mehdiyev, Tofiq F. Musayev, 2014-03-31 The Republic of Azerbaijan in the United Nations Security Council 2012 2013 provides comprehensive information about the work of the Republic of Azerbaijan over the two years of its non permanent membership of the Security Council including the overview of its activities contained in the Introduction part of the book the statements by the President the Minister for Foreign Affairs the Permanent Representative and other officials of Azerbaijan as well as the reports and concept papers on specific issues under the agenda of the Security Council

Strengthening the Rule of Law through the UN Security Council Jeremy Farrall, Hilary Charlesworth, 2016-04-14 The UN Security Council formally acknowledged an obligation to promote justice and the rule of law in 2003 This volume examines the extent to which the Council has honoured this commitment when exercising its powers under the UN Charter to maintain international peace and security It discusses both how the concept of the rule of law regulates or influences Security Council activity and how the Council has in turn shaped the notion of the rule of law It explores in particular how this relationship has affected the Security Council s three most prominent tools for the maintenance of international peace and security peacekeeping sanctions and force In doing so this volume identifies strategies for better promotion of the rule of law by the Security Council This book will be of interest to scholars and students of international law international relations

international development and peacekeeping *The United Nations Security Council in the Age of Human Rights* Jared Genser, Bruno Stagno Ugarte, 2014-06-05 The first comprehensive look at the human rights dimensions of the work of the only UN body capable of compelling action by its member states *The Legal Practice in International Law And European Community Law* Carlos Jiménez Piernas, 2007 This work offers a Spanish perspective on contemporary practice in international law and European Community law by genuine practitioners such as registrars judges and magistrates serving on national and international courts as well as advocates practicing in these courts senior international officials government advisers and academics In five parts this book deals with the practice in international courts practice in international organizations the European Community practice and Spanish practice in matters of public and private international law The last part contains an article on evidence in international practice and a general overview for further research The book offers a very useful insight in matters otherwise available in Spanish such as the applications against Spain lodged with the European Court of Human Rights a comparison between the Spanish Constitutional Court and the Court of Justice of the European Communities public international law before Spanish domestic courts and the Spanish practice on investment treaties **China and Intervention at the UN Security Council** Courtney J. Fung, 2019 This book explains China's inconsistent response to intervention at the UN Security Council It draws upon new data and concludes with new perspectives on the malleability of China's core interests insights about the application of status for cooperation and the implications of the status dilemma for rising powers **The Ukraine Conflict** Derek Averre, Kataryna Wolczuk, 2018-10-19 It is not hyperbole to suggest that the foundations of post cold war security in Europe have been badly damaged by the conflict in Ukraine since 2014 Russia's annexation of Crimea and intervention in eastern Ukraine appear to have created a simmering conflict which may take years to resolve and have profound consequences for the European security environment This volume explores the various political economic and social aspects of these profound changes and their wider significance for Europe bringing together contributions by scholars from across the continent and in various disciplinary fields to offer an authoritative in depth examination of the complex causes of the Ukraine crisis and the consequences for Ukrainian statehood Ukraine's relations with Russia Russia's own domestic governance and Russia's relations with Europe This book was originally published as a special issue of *Europe Asia Studies* **Public Papers of the Presidents of the United States: Harry S. Truman, 1951, Volume 7** Truman, Harry S., 1965-01-01 Public Papers of the Presidents of the United States **Petulant and Contrary: Approaches by the Permanent Five Members of the UN Security Council to the Concept of 'threat to the peace' under Article 39 of the UN Charter** Tamsin Phillipa Paige, 2019-03-19 Aside from self defence a UN Security Council authorisation under Chapter VII is the only exception to the prohibition on the use of force Authorisation of the use of force requires the Security Council to first determine whether that situation constitutes a threat to the peace under Article 39 The Charter has long been interpreted as placing few bounds around how the Security

Council arrives at such determinations As such commentators have argued that the phrase threat to the peace is undefinable in nature and lacking in consistency Through a critical discourse analysis of the justificatory discourse of the P5 surrounding individual decisions relating to threat to the peace found in the meeting transcripts this book demonstrates that each P5 member has a consistent definition and understanding of what constitutes a threat to the peace **Public Papers of the Presidents of the United States, Harry S. Truman: 1951** United States. President (1945-1953 : Truman),1965

Cyprus and the Roadmap for Peace Michális S. Michael,Yücel Vural,2018-10-26 The UN led Cyprus peace process is in desperate need of radical transformation This book makes a notable contribution towards changing the current discourse by empowering the main parties to better value their relationship By altering goals and perceptions the authors explore alternative visions for the future of Cyprus suggesting both realistically feasible and politically challenging ideas Using an exciting innovative and multifocal approach the authors discuss the practical application of resolutions and explore the radical disagreements of the conflict at both social and political levels Reflecting on the idea of a post settlement situation and the prospect of such a reality chapters illustrate the problems challenges and political dynamics of Cyprus The book explores the conceptual approaches to dialogue a review of Greek Turkish and Cypriot policies the challenging roles of the UN and EU Greek Cypriot and Turkish Cypriot perspectives on the conflict and finally dialogical reflections and debates on past and future problems Allowing open and expressive dialogue this book will interest those in academic and practitioner roles focused on international politics conflict resolution and peace studies It allows for further understanding of the complex perspectives presented in Cyprus that have great relevance in other international settings Contributors include C Adamides A B Akter D Christofias G Christou B Ekenoglu D Eroglu A G nal M Hadjipavlou A Heraclides E I ener M Kontos N Loizides M S Michael N Moudouros Y Omerou I zejder S Sonan A S zen M A Talat G Vassilou Y Vural *The War Report* Stuart Casey-Maslen,2014-11-20 This War Report provides detailed information on every armed conflict which took place during 2013 offering an unprecedented overview of the nature range and impact of these conflicts and the legal issues they created In Part I the Report describes its criteria for the identification and classification of armed conflicts under international law and the legal consequences that flow from this classification It sets out a list of armed conflicts in 2013 categorising each as international non international or a military occupation with estimates of civilian and military casualties In Part II each of the 28 conflicts identified in Part I are examined in more detail with an overview of the belligerents means and methods of warfare the applicable treaties and rules and any prosecutions for investigations into or robust allegations of war crimes Part III of the Report provides detailed thematic analysis of key legal developments which arose in the context of these conflicts allowing for a more in depth reflection on cross cutting questions and controversies The topics under investigation in this Report include US policy on drone strikes the use of chemical weapons in Syria the protection of persons with a disability and national and international war crimes trials The Report gives a full and accessible overview of armed conflicts in 2013

making it the perfect first port of call for everyone working in the field Rethinking National Action Plans on Women, Peace and Security S. Aroussi, 2017-05-30 At the time of its adoption in October 2000 United Nations Security Council resolution 1325 on Women Peace and Security WPS was hailed as a turning point for women involved in conflicts peacemaking peacekeeping and post conflict reconstruction Resolution 1325 required all efforts aimed at resolving conflicts and building peace to be inclusive gender sensitive and transformative for women In recent years National Action Plans NAPs on WPS have become one of the most commonly used tools by states to channel assess and monitor the implementation of resolution 1325 and other UN WPS resolutions This book presents an edited version of the proceedings of the NATO Advanced Research Workshop ARW on National Action Plans on Women Peace and Security held in Dublin Ireland in May 2016 The workshop brought together representatives from various states as well as academics and members of civil society and international organizations to discuss their experiences with NAPs and to critically reflect on the role of NAPs in supporting the implementation by states of the WPS framework The aim of this book is to disseminate the key arguments findings and recommendations which emerged from the discussions held at the ARW It includes a summary report which sets out key arguments and recommendations and offers a number of key papers from the ARW with the intention of contributing to academic and policy debates concerning gender and armed conflict and more particularly the WPS framework

Fighting for Peace in Somalia Paul D. Williams, 2018-06-20 *Fighting for Peace in Somalia* provides the first comprehensive analysis of the African Union Mission in Somalia AMISOM an operation deployed in 2007 to stabilize the country and defend its fledgling government from one of the world's deadliest militant organizations Harakat al Shabaab The book's two parts provide a history of the mission from its genesis in an earlier failed regional initiative in 2005 up to mid 2017 as well as an analysis of the mission's six most important challenges namely logistics security sector reform civilian protection strategic communications stabilization and developing a successful exit strategy These issues are all central to the broader debates about how to design effective peace operations in Africa and beyond AMISOM was remarkable in several respects it would become the African Union's AU largest peace operation by a considerable margin deploying over 22 000 soldiers it became the longest running mission under AU command and control outlasting the nearest contender by over seven years it also became the AU's most expensive operation at its peak costing approximately US 1 billion per year and sadly AMISOM became the AU's deadliest mission Although often referred to as a peacekeeping operation AMISOM's troops were given a range of daunting tasks that went well beyond the realm of peacekeeping including VIP protection war fighting counterinsurgency stabilization and state building as well as supporting electoral processes and facilitating humanitarian assistance The Good Drone Kristin Bergtora Sandvik, Maria Gabrielsen Jumbert, 2016-08-25 While the military use of drones has been the subject of much scrutiny the use of drones for humanitarian purposes has so far received little attention As the starting point for this study it is argued that the prospect of using drones for humanitarian and other life saving

activities has produced an alternative discourse on drones dedicated to developing and publicizing the endless possibilities that drones have for doing good Furthermore it is suggested that the Good Drone narrative has been appropriated back into the drone warfare discourse as a strategy to make war more human This book explores the role of the Good Drone as an organizing narrative for political projects technology development and humanitarian action Its contribution to the debate is to take stock of the multiple logics and rationales according to which drones are good with a primary objective to initiate a critical conversation about the political currency of good This study recognizes the many possibilities for the use of drones and takes these possibilities seriously by critically examining the difference the drones functionalities can make but also what difference the presence of drones themselves as unmanned and flying objects make Discussed and analysed are the implications for the drone industry user communities and the areas of crisis where drones are deployed Harry S. Truman United States. President (1945-1953 : Truman),1965 UN Peacekeeping Doctrine in a New Era Cedric de Coning,Chiyuki Aoi,John Karlsrud,2017-02-20 This edited volume offers a first thorough review of peacekeeping theory and reality in contemporary contexts and attempts to align the two to help inform practice **By Order of the President** Phillip J. Cooper,2014-12-05 Scholars and citizens alike have endlessly debated the proper limits of presidential action within our democracy In this revised and expanded edition noted scholar Phillip Cooper offers a cogent guide to these powers and shows how presidents from George Washington to Barack Obama have used and abused them in trying to realize their visions for the nation As Cooper reveals there has been virtually no significant policy area or level of government left untouched by the application of these presidential power tools Whether seeking to regulate the economy committing troops to battle without a congressional declaration of war or blocking commercial access to federal lands presidents have wielded these powers to achieve their goals often in ways that seem to fly in the face of true representative government Cooper defines the different forms these powers take executive orders presidential memoranda proclamations national security directives and signing statements demonstrates their uses critiques their strengths and dangers and shows how they have changed over time Cooper calls on events in American history with which we are all familiar but whose implications may have escaped us Examples of executive action include Washington s Neutrality Proclamation Lincoln s Emancipation Proclamation the more than 1 700 executive orders issued by Woodrow Wilson in World War I FDR also issued the order to incarcerate Japanese Americans during World War II Truman s orders to desegregate the military Eisenhower s numerous national security directives JFK s order to control racial violence in Alabama As Cooper demonstrates in his balanced treatment of these and subsequent presidencies each successive administration finds new ways of using these tools to achieve policy goals especially those goals they know they are unlikely to accomplish with the help of Congress A key feature of the second edition are case studies on the post 9 11 evolution of presidential direct action in ways that have drawn little public attention It clarifies the factors that make these policy tools so attractive to presidents and the consequences that can flow from their use and abuse

in a post 9 11 environment There is an important new chapter on executive agreements which though they are not treaties within the meaning of the U S Constitution and not subject to Senate ratification appear in many respects to be rapidly replacing treaties as instruments of foreign policy The United Nations Security Council in the 1990s Juergen Dedring, 2008-07-15 From an insider s perspective Juergen Dedring offers a systematic overview of the work of the United Nations Security Council following the end of the Cold War He explores the nature of the Security Council s decision making process and its transformation as a result of the basic learning taking place among its fifteen members and other participants on the one hand and the challenges presented by a constantly changing world on the other He examines the increasing transparency of the Council s political process and the increased participation of nonmember states and organizations Discussions of numerous agenda items and thematic issues not usually covered by the media are included along with case studies of situations in the occupied Arab territories Tajikistan and Sierra Leone Dedring argues that the Security Council whose purpose is to maintain international peace and security has not only continued to perform its charter based function but has also experienced a phase of resurgence and renewal that has been effective in changing the Council s role in the center of the global system
