Future Perfect Blueprint Trilogy 1:

Future Perfect Katrina Mountfort, 2014-09-19 The Blueprint trilogy takes us to a future in which men and women are almost identical and personal relationships are forbidden Following a bio terrorist attack the population now lives within comfortable Citidomes MindValues advocate acceptance and non attachment The BodyPerfect cult encourages a tall thin androgynous appearance and looks are everything This first book Future Perfect tells the story of Caia an intelligent and highly educated young woman In spite of severe governmental and societal strictures Caia finds herself becoming attracted to her co worker Mac a rebel whose questioning of their so called utopian society both adds to his allure and encourages her own questioning of the status quo As Mac introduces her to illegal and subversive information she is drawn into a forbidden dangerous world becoming alienated from her other co workers and resmates the companions with whom she shares her residence In a society where every thought and action are controlled informers are everywhere whom can she trust When she and Mac are sent on an outdoor research mission Caia s life changes irreversibly A dark undercurrent runs through this story the enforcement of conformity through fear the fostering of distorted and damaging attitudes towards forbidden love manipulation of appearance and even the definition of beauty will appeal to both an adult and young adult audience The Janus Cycle Tej Turner, 2015-01-02 The Janus Cycle can best be described as gritty sexy surreal urban fantasy Janus is a nightclub But it s not merely a location it s virtually a character in its own right On the surface it appears to be a subcultural hub where the strange and disillusioned who feel alienated and oppressed by society can escape to be free from convention Underneath that facade is a surreal space in time where the very foundations of reality can be twisted and distorted But the special unique vibe of Janus is hijacked by a bandwagon of people who choose to conform to alternative lifestyles simply because it has become fashionable to be different and this causes many of its original occupants to feel lost and disenchanted The story unfolds through the eyes of eight narrators each with their own perspective and their own personal journey A story in which the nightclub itself goes on a journey But throughout one strange girl briefly appears and reappears warning the narrators that their individual journeys are going to collide in a cataclysmic event Is she just another one of the nightclub s denizens a cynical mischief maker out to create havoc or a time traveller trying to prevent an impending disaster

Forbidden Alliance Katrina Mountfort, 2015-09-04 The Blueprint trilogy takes us to a future in which men and women are almost identical and personal relationships are forbidden In Forbidden Alliance the second book of the trilogy more than sixteen years have passed since Caia and Mac now renamed Cathy and Michael fled their oppressive lives although the plight of those who remain in the Citidomes is never far from their minds Cathy and Michael now have three children and Citidome life is a distant memory But for Cathy village life is no longer idyllic While Michael is famed as the leader of the Alliance of Outside Communities she is left holding the baby When a chance arises for her to fulfil her potential will she make the right choices Michael however is too preoccupied to notice Cathy s personal struggles Heightened security in the Citidomes has

resulted in fewer escapees a shortage of young farmers and a depleted gene pool in the village While Michael unveils his most audacious plan yet to liberate rebels from the Citidomes will his devotion to the cause cost him the love of his wife and daughter And will his plan endanger his life as well as those of his allies Forbidden Alliance is also the story of Cathy and Michael s sixteen year old daughter Joy Fiercely intelligent but with limited career options she fights against the future her father has planned for her marriage to village boy Matt Forbidden from seeing Harry the nomadic canal dwelling boy she has loved since childhood she finds friendship from an unexpected source BodyPerfect ex citizen Ryan whose perfect Citidome looks are less than perfect in the outside world And her illusions about life in the Citidomes are about to be shattered In addition to the issues explored in Future Perfect the first book of the trilogy Forbidden Alliance poses additional questions including those of leadership family loyalties and whether it is possible to justify the sacrifice of human lives for the greater good

Unity of Seven Peter R. Ellis, 2016-01-02 September is back home and it is still the night of her birthday despite her having spent over three months in Gwlad battling the Malevolence at the seventh conjunction of the planets She no longer has the Maengolauseren nor the powers it gave her It is back to facing the bullies at school and her struggles with her weight and studies but she worries about how well the people of Gwlad have recovered from the terror of the Malevolence She is also unsure what happened to Malice Mairwen as the Cemegwr said that Toddfa penbaladr the universal solvent would join the twins together Is Malice inside her Could she turn to evil She must discover a way to return to the universe of Gwlad and the answer seems to lie in her family history The five Cludydds before September and her mother were her ancestors The clues take her on a journey in time and space which reveals that while in great danger she is also the key to the survival of all the universes September must overcome her own fears accept an extraordinary future and once again face the evil above the stars Unity of Seven is the third volume in the thrilling fantasy series Evil Above the Stars by Peter R Ellis that appeals to readers of all ages of fantasy or science fiction especially fans of JRR Tolkien and Stephen Donaldson If old theories are correct until a new idea comes along does the universe change with our perception of it Were the ideas embodied in alchemy ever right What realities were the basis of Celtic mythology

SmartYellow™ J.A. Christy, 2015-08-07 SmartYellow is the story of a young girl Katrina Williams who finds herself on the wrong side of social services After becoming pregnant with only a slight notion of the father s identity she is disowned by her parents and goes to live on a social housing estate Before long she is being bullied by a gang involved in criminal activity and anti social behaviour Seeking help from the authorities she is persuaded to return to the estate to work as part of Operation Schr dinger alongside a surveillance specialist But she soon realises that Operation Schr dinger is not what it seems Exploring themes of social inequity and scientific responsibility J A Christy s first speculative fiction novel leads her heroine Katrina to understand how probability hope and empathy play a huge part in the flow of life and are absent in the stagnation of mere survival As readers we also start to question how we would know if the power of the State to support and care for the weak had become

corrupted into the oppression of all those who do not fit society's norms SmartYellow offers a worryingly plausible and chilling glimpse into an alternate Britain For the sake of order and for the benefit of more fortunate members of society those seen as socially undesirable are marked with SmartYellow making it easier for them to be controlled and maintained in a state of fruitless inactivity Writer J A Christy turns an understanding and honest eye not only onto the weak who have failed to cope with life but also onto those who ruthlessly exploit them for their own ends At times tense and threatening at times tender and insightful SmartYellow is a rewarding and thought provoking read

Freedom's Prisoners Katrina Mountfort, 2016-09-09 The Blueprint trilogy takes us to a future in which men and women are almost identical and personal relationships are forbidden In Book 3 of the trilogy tensions have escalated since the outbreak Michael and his army of rebels may have won the first battle in their fight against the Citidome authorities but can they win a war The Citidomes are fighting back and no one is safe any more as RotorFighters rain down fire on defenceless villages destroying them and their inhabitants For Suna this is a time of difficult decisions as she struggles to adjust to life outside the Citidomes Where do her loyalties lie Is she capable of understanding human emotion After an unexpected betrayal Michael and Cathy find themselves back in Sigma 2 where Cathy must confront her worst fears Can Joy and Harry recapture the magic of first love or have the horrors they have witnessed scarred them forever And do they have any chance of succeeding in the most ambitious mission the Alliance of Outside Communities has ever undertaken Is there anyone in the world beyond the shores of State Eleven who cares enough to help Even if there is will they be able to do anything in time

Freedom's Prisoners explores betrayal guilt hope and endurance in an explosive conclusion to the Blueprint trilogy the Dark shall do what Light cannot Sanem Ozdural, 2015-04-10 We live in a world of Light and Dark Day and Night Good and Evil How do we deal with evil Despite its power and resources the state with all its laws and police is neither omnipotent nor omnipresent It is not always enough There is a place called Pera which lies beyond the Light Veil on the other side of reality There are light trees there that eat sunlight and bear fruit that in turn lights up and energises literally the community of Pera There are light birds that glitter in the night because they have eaten the seed of the lightberry The House of Light and Dark which is the domain of the Sun and her brother Twilight welcomes all creatures living in Pera But in the midst of all the glitter laughter and the songs it must be remembered that the lightberry is poisonous to the non Pera born and the Land is afraid when the Sun retreats for it is then that Twilight walks the streets In Pera as in our world there is deceit and cruelty There are people who would harm defenceless children and those who would jeopardise the health and wealth of their communities for personal gain What happens though when the Sun is not able to shine her light into the repulsive crevices of humanity When with all the goodwill in the world we cannot keep the children safe or the forests intact What happens when the rivers are polluted irreversibly and we can hear the land groan barren and toxic And the people have lost their savings their homes and their communities Then the Dark shall do what Light cannot With some of the characters that we originally met in LiGa Sanem

Ozdural's first novel *the Dark shall do what Light cannot* transports us from New York to the colourful and wonderful world of Pera. On the way we meet the pirate Patron and her ship the Flying Fish the only one that can sail through the Light Veil. Orion Imm the Hunter respected by some and feared by others and Shadow the formidable soul of Pera. [Sailor to a Siren](#) Zoë Sumra, 2015-07-17 *Sailor to a Siren* is a space opera novel with significant nods to the gangland thriller genre. When Connor and Logan Cardwain a gangster's lieutenants steal a shipment of high grade narcotics on the orders of their boss Connor dreams of diverting the profits and setting up in business for himself. His plans encounter a hurdle in the form of loise Falavi re Logan's former girlfriend who has been hired by an interplanetary police force's vice squad. Logan wants a family loise wants to stop the drugs shipment from being sent to her home planet. Connor wants to gain independence without angering his boss. All of their plans are derailed though when they discover that the shipment was hiding a much deadlier secret the prototype of a tiny superweapon powerful enough to destabilise galactic peace. Crime lords corrupt officials and interstellar magicians soon begin pursuing them and Connor Logan and loise realise they have to identify and confront the superweapon's smuggler in order to survive. But when one by one their friends begin to betray them their self imposed mission transforms from difficult to near impossible. *Sailor to a Siren* is a great debut from Zo Sumra and establishes her as a name to watch in epic space opera. The depth of her characters the breadth of her world building the ambition and longevity of her story arcs spanning multiple generations of families all make this a first step in what is likely to be a fascinating and enthralling universe. This is a universe that has more in common with *The Galactic Milieu* *Firefly* or *Babylon 5* than with *Star Trek* or *Star Wars*. These are stories that Zo has been thinking about preparing and crafting for many years stories that deserve to be told from a story teller who deserves to be heard. [The Ghost in You](#) Katrina Mountfort, 2018-02-16 What do you do if you're dead but haven't moved on? You keep finding yourself back where you died with very little control over when sometimes you can be away for days weeks or even months and then you're back. You're stuck in the clothes you were wearing when you died at the age you died. Waiting. Then after years of this intermittent existence you realise what you have been waiting for what it is that you have to do in order to finally move on. Just as you have found the best reason to stay. A ghost story told from the perspective of the ghost herself. *The Ghost in You* is a first hand account from beyond the grave by an innocent girl who dies before her time and tries to make sense of what is happening to her while helping her friends and discovering her purpose.
