ethnic diversity is a very significant factor in explaining Africa s poor economic performance Ethnic Diversity and Economic
Instability in Africa challenges this conventional wisdom Drawing on the insights of historians anthropologists and political
scientists as well as development economists this book questions whether ethnicity is the most useful organising principle by
which to examine the economic development of Africa arguing that it is a more fluid and contingent concept than economic
models allow Instead the authors explore the actual experience of ethnicity in Africa and propose new methods of measuring
ethnic diversity and inequalities Finally some tentative conclusions are reached regarding appropriate policy reforms
