## **Ib Philosophy Sl 2013 Past Paper:**

*China and the Islamic World* Robert R. Bianchi, 2019-02-01 China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens China and the Islamic World explores how China s leaders and citizens are learning through their relationships with Pakistan Turkey Indonesia Iran Nigeria and Egypt that they have to respect and adjust to the aspirations of ordinary people throughout the Islamic world not just cater to the narrow band of government and business elites Bianchi demonstrates that turbulent countries along the New Silk Road are likely to transform Chinese society at least as much as China changes them This realization will be deeply unsettling for China s authoritarian rulers who desperately want to monopolize power domestically The party and state bosses have responded to challenges with a contradictory blend of flexibility abroad and rigidity at home compromising with popular demands in one country after another while refusing to negotiate many of the same issues with their own citizens This book shows how China faces a growing struggle to maintain their double sided statecraft as it becomes apparent that the New Silk Road is not a one way street

**Separatism and the State** Damien Kingsbury, 2021-02-28 This book proposes and tests a theory of separatism to determine if there are key commonalities as to why separatist movements rise and what fuels them In the post Cold War period separatism has been on the rise Today there are more than 100 active separatist movements with around 70 of them engaging in violence This book focuses on examples from Europe the Middle East Africa and Asia to highlight the commonalities found across the case studies It examines the idea of separatism to better understand what drives movements to break away from preexisting states demonstrates the factors which produce both violent separatism and the rise of armed non state actors and shows the options for the resolution of such conflict based on considering claims for separatism from the perspectives of separatist movements This book will be applicable for undergraduate and postgraduate students of International Relations and International Politics as well as Conflict Peace Studies Anthropology and Post Colonial Studies
