Green Industrial Policy in Emerging Countries Anna Pegels, 2014-03-05 For decades governments have tried to foster industrial competitiveness and economic growth Many instruments are known to work and many lessons have been learned However humanity is increasingly feeling the effects of natural resource depletion The rate of this depletion is deeply unsustainable and it is as of yet inextricably linked to economic growth and development To preserve acceptable living conditions for future generations while at the same time creating these conditions for millions of poor in the first place we must achieve a de linking of economic activity and resource depletion This book identifies the

drivers and success factors of green industrial policy which seeks to reconcile the synergies and trade offs which exist between economic and environmental goals Greening the economy is a goal which will require enormous investment As markets are currently failing to provide the required incentives for environmental sustainability governments must intervene and provide policy rents for investments in sustainability while withdrawing rents from polluting investments In this they will face the risk of political capture by interest groups and difficult choices among technologies Rent management is therefore the heart of green industrial policy and the focus of this book On top of this the country examples provided in this volume focus on the emerging powers which will have an important influence the future of our planet However the lessons learned are valuable not only for countries introducing green industrial policies for the first time but also for those under pressure to reform existing policies This book will be of interest to students researchers and policymakers in the areas of energy policy sustainable development industrial economics and ecological economics *The Refugee in International Law* Guy S.

Goodwin-Gill, Jane McAdam, 2021-09-09 The status of the refugee in international law and of everyone entitled to protection has ever been precarious not least in times of heightened and heated debate people have always moved in search of safety and they always will In this completely revised and updated edition the authors cast new light on the refugee definition the meaning of persecution including with regard to gender and sexual orientation and the protection due to refugees and those affected by statelessness or disasters They review the fundamental principle of non refoulement as a restraint on the conduct of States even as States themselves seek new ways to prevent the arrival of those in search of refuge Related principles of protection non discrimination due process rescue at sea and solutions are analysed in light of the actual practice of States UNHCR and treaty monitoring bodies The authors closely examine relevant international standards and the role of UNHCR States and civil society in providing protection contributing to the development of international refugee law and promoting solutions New chapters focus on the evolving rules on nationality statelessness and displacement due to disasters and climate change This expanded edition factors in the challenges posed by the movement of people across land and sea in search of refuge and their interception reception and later treatment The overall aim remains the same as in previous editions to provide a sound basis for protection in international law taking full account of State and community interests and recognizing the need to bridge gaps in the regime which now has 100 years of law and practice behind it *Conflict Landscapes: An*

Archaeology of the International Brigades in the Spanish Civil War Salvatore Garfi, 2019-08-31 This volume is an archaeological exploration of the conflict landscapes encountered by volunteers of the International Brigades in the Spanish Civil War 1936-39 This research draws not only on the techniques of landscape archaeology but also on the writings of international volunteers in Spain in particular George Orwell *The Georgia Review*, 2019 A catalogue of a very large and curious collection of books; in which are included the libraries of T. Whately, J. Wallace [&c.]. Which will be sold this day 1773 Thomas Payne, 1773 **TV Socialism** Anikó Imre, 2016-05-19 In TV Socialism Anikó Imre provides an innovative history

of television in socialist Europe during and after the Cold War Rather than uniform propaganda programming Imre finds rich evidence of hybrid aesthetic and economic practices including frequent exchanges within the region and with Western media a steady production of varied genre entertainment elements of European public service broadcasting and transcultural multilingual reception practices These televisual practices challenge conventional understandings of culture under socialism divisions between East and West and the divide between socialism and postsocialism Taking a broad regional perspective encompassing Eastern Europe and the Soviet Union Imre foregrounds continuities between socialist television and the region's shared imperial histories including the programming trends distribution patterns and reception practices that extended into postsocialism Television she argues is key to understanding European socialist cultures and to making sense of developments after the end of the Cold War and the enduring global legacy of socialism Calendar of the Clarendon State Papers
