Dulebohn,Brian Murray,Dianna L. Stone,2022-01-01 As we enter the third decade of the twenty first century we are seeing a renaissance of context in influencing leadership leader follower relations and leader effectiveness as well as a recognition of the tripartite nature of leadership To fully understand and appreciate leadership one must see the multiple parts of it as well as the connections among them Leadership is multi dimensional leadership depends on leaders followers and context Leadership research in the past three decades has been dominated by interest in neo charismatic leadership styles and a focus on leadermember exchange in leader follower relationships Recently other approaches to leadership such as ethical and authentic leaders have garnered greater attention in response to the moral and ethical challenges in the workplace Additionally established approaches to leadership emergence and development have been challenged by their relevance to diverse work forces and issues of inclusion This twelve article volume includes an outstanding roster of established and emerging leadership authors who tackle questions of leadership at the intersections of leaders followers and context The volume opens with two articles that set the stage for the current state of leadership research and paths for its future including a commentary by Edwin Locke and Gary Latham on current management research practices and an action oriented review of leadership research from the start of the 21st century The volume is organized around three themes leadership and diversity leader follower relationships and systems of leader follower and context Articles in the volume advance diversity research with an integration of leadership and diversity theories that demonstrate the former s need for re examination in light of the latter a systematic development of inclusive leadership theory and a close examination of immigrant ethnic identity The authors of several articles expand our understanding of leader follower relationships in the context of teams and alliances the contextual boundaries of authentic leadership theory and the authentic

leader's potential impact on harassment in organizations The volume culminates with three demonstrations of leadership as systems of leader-follower context interaction including a close examination of the toxic triangle's manifestation in university scandals a micro process model of power and leadership and a configurational approach to studying leadership The volume is designed primarily for scholars in the fields of human resource management organizational behavior and leadership It also well serves the needs of instructors and students in master's and doctoral courses in leadership or organizational behavior Each article is grounded in managerial context that will appeal to practitioners in the field *Technical Report*, 1994

Charismatic, Ideological, and Pragmatic Approach to Leadership Samuel T. Hunter, Jeffrey Lovelace, 2020-04-21 The past 15 years of leadership research have taught us a valuable lesson There is more than one way to be a successful leader The Charismatic Ideological and Pragmatic CIP approach to leadership showcases three unique yet equally viable pathways to leading and influencing others This book reviews the history of the CIP model of leadership and summarizes the empirical findings supporting the framework Emerging areas of leadership research on the CIP model are explored including followership shared leadership measurement and gender Contributions from a range of international academics provide readers with insight into the foundation of the CIP theory of leadership and into where the future of leadership perspectives

are headed It includes a chapter for practitioners seeking to understand the framework through an applied lens and offers evidence for a new scale designed to quantify a leader's CIP profile Finally a revised theoretical framework incorporating key findings to expand the model to meet the diverse needs of future researchers and leaders is offered This thought provoking volume will be essential reading for all scholars researchers and students interested in the charismatic ideological and pragmatic approach to leadership as well as professionals considering the introduction of a new leadership model

Teacher Learning and Leadership Ann Lieberman, Carol Campbell, Anna Yashkina, 2016-08-25 Teacher Learning and Leadership asserts that teachers should be put at the center of creating developing organizing implementing and sharing their own ideas for school change rather than being passive recipients of knowledge from the outside It argues that there is tremendous potential for the good of students and the professionalization of teaching when teachers work collaboratively to develop their own and their colleagues professional knowledge and practices and are supported by school and system leaders unions and government The book draws on the groundbreaking work of the Teacher Learning and Leadership Program in Ontario and uses an in depth case study to illustrate its points It demonstrates how professional development built around collaboration teacher leadership curriculum development technology and pedagogy can be organized in a way that redistributes control and responsibility to teachers thereby instilling a genuine sense of pride and accomplishment in their work This book is a sincere outreach from the authors who advocate for the professional development of by and for teachers as individuals and importantly as a collective profession The authors argue that projects like the TLLP a joint initiative between the Ontario Ministry of Education and the Ontario Teachers Federation can radically and positively transform teachers knowledge skills and practices The book provides an important model for school change led by teachers rather than experts in partnership with school and system leaders and is a fascinating read for all those concerned with teaching teacher development and educational change
