arrangements made prospectively between a multinational taxpayer and one or more revenue authorities agreeing on an appropriate set of criteria for the determination of the transfer pricing of the covered transactions over a period of time This is the first book to offer expert insights on APAs from a practical perspective By focusing on the United States and Australia the two countries that were at the forefront of adopting APAs and whose wealth of experience over two decades confirms their APA programs as the global paradigms the author is able to highlight the advantages and disadvantages of pursuing an APA and to shed light on the powerful efficacy of this strategy for avoiding transfer pricing disputes In addition the author enlists the views of revenue authorities transfer pricing practitioners and corporate counsel who deal with the realities of transfer pricing assessment and compliance on an ongoing basis offering acute insight into how APAs really work in a practical way This book contributes to the body of knowledge on APAs in the context of transfer pricing by providing in depth scrutiny of the most important issues surrounding this critical area and by examining innovations in APAs in the United States and in Australia Its unmatched coverage will be welcomed by tax experts at law firms and multinational companies as well as by revenue officials policymakers and scholars and researchers in international taxation

Comparative International Accounting Christopher Nobes, Robert Henry Parker, 2002 Now in its seventh edition this successful text offers a comprehensive yet coherent examination of the international dimensions of financial accounting and reporting Most of the chapters are written by the two main authors but there are several contributions from leading international practitioners and academics Part I gives an overview of the causes and nature of international differences in accounting and financial reporting Part II examines individual countries and includes studies of the UK the US the Netherlands France Germany Japan Australia Canada Singapore Scandinavia Italy Spain South Korea Central and eastern Europe and China Part III takes a comparative look at four major financial reporting issues Part IV analyses four issues of international analysis and management The text has been thoroughly revised and updated It retains the structure of the last edition but incorporates the following new features New chapters on International Accounting Standards Chapter 6 and Liabilities Chapter 15 The structure and content of the main country chapters have been revised and standardized to present a more cohesive comparison Each country chapter contains a list of differences from international standards Learning objectives have been introduced at the start of each chapter and extra questions have been added to several chapters Comparative International Accounting is primarily intended for students at both undergraduate and postgraduate level taking courses in comparative and international accounting Christopher Nobes is PricewaterhouseCoopers Professor of Accounting at the University of Reading UK He is Vice Chairman of the accountancy committee of the Federation des Experts Comptables Europeens and was a UK representative on the board of the IASC from 1993 to 2001 Robert Parker is Emeritus Professor of Accounting at the University of Exeter UK He was formerly editor of the journal Accounting and Business Research
