Feinman, 2005-10-12 There is an undercover war going on in America that impacts everyone's life far more than the legal issues that typically grab the headlines The conservative movement has been systematically turning back a century's worth of the evolving gains and protections found in the common law the areas of law that affect the everyday activities of ordinary people Throughout the twentieth century contract property and personal injury law evolved to take more account of social conditions and the needs of consumers workers and less powerful members of American society Contracts were interpreted in light of common sense property ownership was subjected to reasonable use provisions to protect the environment and consumers were protected against dangerous products But all that is changing Conservatives have a clear agenda to turn

back the clock on the common law to maximize the profits of big business Some significant inroads have already been made to protect gun manufacturers from lawsuits enforce form contracts that prevent employees from suing for discrimination and hamper the government's protection of the environment against aggressive development for example More rollbacks are on the horizon Although this aspect of the conservative agenda is not as visible as assaults on abortion rights and civil liberties it may ultimately have even greater impact on our society Jay M Feinman's book is an accessible eye opening primer full of vivid examples and case histories from victims of medical malpractice who cannot recover damages to people who relinquish their right to sue by applying for a job If you subscribe to any of these common myths of twenty first century America you will find surprising facts and illuminating analysis in *Un Making Law The All American Blame Game* has corrupted our moral fiber everyone is looking for a scapegoat to sue whenever anything goes wrong Malpractice lawsuits have gone sky high in recent years forcing insurance companies reluctantly to raise rates and forcing doctors out of practice Consumers and employees agree to arbitration because it is a much simpler less expensive and fairer way to resolve contract disputes The government invades the rights of private property owners when it protects endangered species and regulates land development **Monthly Catalogue, United States Public Documents**, 1995 *Monthly Catalog of United States Government Publications*, 1995
