Evolution Christopher H. K. Persaud, 2007-12 Darwinian evolution is taught unreservedly to students of science around the world as incontrovertible truth even though many aspects of the theory have been thoroughly discredited while others are woefully lacking in corroboration from a standpoint of proper scientific precept and practice Practical and honest scientists increasingly are acknowledging that evolutionism is biologically and mathematically impossible The outlandish premise is at odds with the laws of physics and manifestly incompatible with genuine geological and paleontological criteria for aging and classifying rocks strata and fossils Evolutionary theory's ostracism of God as a supreme designer and creator of the universe and of life has emboldened many of history's most ruthless dictators who have embraced its disturbing message to commit crimes of unspeakable evil Many millions of people have lost their lives as demagogues fueled by evolutionist inclinations have sought to legitimize sinister proclivities such as racism bigotry eugenics and ethnic cleansing among other perpetrations of antipathy and wickedness It is not unreasonable to assume that many of today's social and behavioral thinkers as well as misguided scientists who support evolutionary theory also nurture predilections that are far removed from wholesome deportment and espouse leanings that show scant respect for the sanctity of human life Evolutionary thought falls outside the precincts of essential moral contemplation and is beyond the realm of real science

CONTENDING FOR THE FAITH Christopher H.K. Persaud, 2013-05-21 Doubt and disbelief in God's existence and his plan of redemption for lost humankind is becoming

increasingly evident in today's hedonistic self-directed world. Many Christian believers even choose to listen to and to acknowledge a feel-good now Gospel notwithstanding its deviation from Biblical truth and its possible damning implications. Conversely, many people are wont to deny the existence of a devil and the reality of a place of unceasing torment and or destruction called hell. A good God cannot be so cruel; they opine. Jesus commissioned his followers to take his Gospel to the far reaches of the Earth, and the Holy Scriptures encourage Christians in Jude 1-3 to earnestly contend for the faith. More than at any other time in history, believers must defend the Christian Gospel and advocate its timeless truths everywhere so that all of humankind may hear about Christ's offer of eternal life in a place named Paradise. The miscellany of contemplative inquiries and arguments presented in **CONTENDING FOR THE FAITH** purposes to do just that: endorse and advance the Gospel of Christ and help establish Biblical truth. Much too much is at stake for not spreading or not listening to Christ's entreaty.

ONE WAY OR ANOTHER Edward Steep, 2024-05-23. The Value of the right WORDS: words of the right values. Your first step might well be to READ all of the author's books as they form the backbone of wisdom. It is open to debate as we are all different and if you need to adapt certain meanings/inputs from those writings, that's fine. Get into the spirit of things: adapt to change and a calm mindset in your own style and manner. Never push things as YOU are the example; others should see the need to follow YOU should seek to become an EXEMPLAR and should act in that manner.

The Tamburitza Tradition Richard March, 2013-11-14. The Tamburitza Tradition is a lively and well-illustrated comprehensive introduction to a Balkan folk music that now also thrives in communities throughout Europe, the Americas, and Australia. Tamburitza features acoustic stringed instruments ranging in size from tamburas as small as a ukulele to ones as large as a bass viol. Folklorist Richard March documents the centuries-old origins and development of the tradition, including its intertwining with nationalist and ethnic symbolism. The music survived the complex politics of nineteenth-century Europe but remains a point of contention today. In Croatia, tamburitza is strongly associated with national identity and supported by an artistic and educational infrastructure. Serbia is proud of its outstanding performers and composers who have influenced tamburitza bands on four continents. In the United States, tamburitza was brought by Balkan immigrants in the nineteenth century and has become a flourishing American ethnic music with its own set of representational politics. Combining historical research with in-depth

interviews and extensive participant observer description The Tamburitza Tradition reveals a dynamic and expressive music tradition on both sides of the Atlantic and beyond illuminating the cultures and societies from which it has emerged
