*Handbook of Marriage and the Family* Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in

America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4      **Family Storytelling** Jody Koenig Kellas, 2013-09-13 Stories and storytelling are one of the primary ways that families and family members make sense of both everyday and difficult events create a sense of individual and group identity remember connect generations and establish guidelines for family behavior With so many important functions storytelling is a significant but still understudied communicative process for the family Family Storytelling focuses on the ways in which stories are told in and about family in order to provide insight into the processes functions and consequences of family storytelling This collection of empirical articles illuminates various ways in which family storytelling affects and reflects the negotiation of individual and relational identity in the family teaches important family lessons and helps members make sense of and cope with difficulty Each of these functions is explored through both scientific and interpretive investigations thus showcasing the contributions that research on family storytelling from different paradigms make to our understanding of the family This book was originally published as a special issue of the Journal of Family Communication      **Families in Context** Gene H. Starbuck, Karen Saucier Lundy, 2015-11-17 The most thoroughly updated edition yet this book offers students perspectives of changes in marriage and family over time including the impact of the Great Recession and of new media technologies A hallmark of Families in Context remains the well researched data driven quality of the text Beyond presenting thoroughly updated statistics and literature each chapter examines new trends and assesses their implications for students lives The underlying presentation remains balanced theoretically grounded and accessible to a wide variety of classes allowing students of all ages and family backgrounds to draw their own conclusions about controversial topics Features of the new edition include coverage of the Affordable Care Act new social media and families the latest trends in poverty education social mobility gender identities and healthcare updated In the News features and author created PowerPoint slides
