Imagining Modern Democracy:

Imagining Modern Democracy Ranilo Balaguer Hermida, 2014-11-19 Examines democracy in the Philippines using the political thought of Jürgen Habermas This book is a pioneering study of Philippine democracy one of the oldest in the Asian region vis vis Habermasian critical theory Proceeding from a concise examination of the theory of law and democracy found in Habermas's *Between Facts and Norms* Ranilo Balaguer Hermida explains how the law occupies the central role in both the legitimation of political power and the attainment of social integration He then discusses how Habermas proposes to resolve the tension that exists in modern society between democratic norms and social facts through the adoption of a lawmaking procedure whereby the informal sources of issues and opinions from the public sphere are allowed to develop and interact with the formal deliberations and decision processes inside the political system He also explores certain provisions of the present Philippine Constitution that were expressly intended to restore democratic institutions and processes destroyed by decades of martial law as well as the problems and hindrances that stand in the way of their full implementation *Imagining Modern Democracy* presents a clear and convincing application of philosophical theory to practical politics Hermida using Habermas's theoretical reflections on law and democracy provides a basis for understanding democratic practice in the Philippines The book is essential reading for those interested in both Habermas's work and its implications for emerging constitutional democracies David M Rasmussen Editor in Chief Philosophy and Social Criticism *Imagined Democracies* Yaron Ezrahi, 2012-10-15 In our era of mass electronic communications political realities are produced by believable fictions that echo popular desires *The Democratic Courthouse* Linda Mulcahy, Emma Rowden, 2019-09-20 The Democratic Courthouse examines how changing understandings of the relationship between government and the governed came to be reflected in the buildings designed to house the modern legal system from the 1970s to the present day in England and Wales The book explores the extent to which egalitarian ideals and the pursuit of new social and economic rights altered existing hierarchies and expectations about how people should interact with each other in the courthouse Drawing on extensive public archives and private archives kept by the Ministry of Justice but also using case studies from other jurisdictions the book details how civil servants judges lawyers architects engineers and security experts have talked about courthouses and the people that populate them In doing so it uncovers a changing history of ideas about how the competing goals of transparency majesty participation security fairness and authority have been achieved and the extent to which aspirations towards equality and participation have been realised in physical form As this book demonstrates the power of architecture to frame attitudes and expectations of the justice system is much more than an aesthetic or theoretical nicety Legal subjects live in a world in which the configuration of space the cues provided about behaviour by the built form and the way in which justice is symbolised play a crucial but largely unacknowledged role in creating meaning and constituting legal identities and rights to participate in the civic sphere Key to understanding the modern day courthouse this book will be of interest to

Experiments with Empire Justin Izzo,2019-05-06 In Experiments with Empire Justin Izzo examines how twentieth century writers artists and anthropologists from France West Africa and the Caribbean experimented with ethnography and fiction in order to explore new ways of knowing the colonial and postcolonial world Focusing on novels films and ethnographies that combine fictive elements and anthropological methods and modes of thought Izzo shows how empire gives ethnographic fictions the raw materials for thinking beyond empire's political and epistemological boundaries In works by French surrealist writer Michel Leiris and filmmaker Jean Rouch Malian writer Amadou Hamp t B Martinican author Patrick Chamoiseau and others anthropology no longer functions on behalf of imperialism as a way to understand and administer colonized peoples its relationship with imperialism gives writers and artists the opportunity for textual experimentation and political provocation It also Izzo contends helps readers to better make sense of the complicated legacy of imperialism and to imagine new democratic futures

Poland Patrice M. Dabrowski,2014-10-01 Since its beginnings Poland has been a moving target geographically as well as demographically and the very definition of who is a Pole has been in flux In the late medieval and early modern periods the

country grew to be the largest in continental Europe only to be later wiped off the map for more than a century The Polish phoenix that rose out of the ashes of World War I was obliterated by the joint Nazi Soviet occupation that began with World War II The postwar entity known as Poland was shaped and controlled by the Soviet Union Yet even under these constraints Poles persisted in their desire to wrest from their oppressors a modicum of national dignity and ultimately managed to achieve much more than that Poland is a sweeping account designed to amplify major figures moments milestones and turning points in Polish history These include important battles and illustrious individuals alliances forged by marriages and choices of religious denomination and meditations on the likes of the Polish battle slogan for our freedom and yours that resounded during the Polish fight for independence in the long 19th century and echoed in the Solidarity period of the late 20th century The experience of oppression helped Poles to endure and surmount various challenges in the 20th century and Poland's demonstration of strength was a model for other peoples seeking to extract themselves from foreign yoke Patrice Dabrowski's work situates Poland and the Poles within a broader European framework that locates this multiethnic and multid denominational region squarely between East and West This illuminating chronicle will appeal to general readers and will be of special interest to those of Polish descent who will appreciate Poland's longstanding republican experiment

Deliberative Agency Uchenna Okeja, 2022-03-15 Public deliberation highly valued by many African societies becomes the cornerstone of a new system of African political philosophy in this brilliant highly original study In *Deliberative Agency* philosopher Uchenna Okeja offers a way to construct a new political center by building it around the ubiquitous African practice of public deliberation a widely accepted means to resolve legal matters reconcile feuding groups and reestablish harmony In cities hometown associations and voluntary organizations carry out the task of fostering deliberation among African groups for different reasons In some instances the deliberation aims to settle disputes In others the aim is to decide the best action to take to address unfortunate incidents such as death Through a measured comparative analysis *Deliberative Agency* argues that the best way to reimagine and harness the idea of public deliberation based on current experiences in Africa is to see it as performance of agency Building a new political center around the practice places agency at the core of a new political life in Africa

The Anthropology of Parliaments Emma Crewe, 2021-05-13 *The Anthropology of Parliaments* offers a fresh comparative approach to analysing parliaments and democratic politics drawing together rare ethnographic work by anthropologists and politics scholars from around the world Crewe's insights deepen our understanding of the complexity of political institutions She reveals how elected politicians navigate relationships by forging alliances and thwarting opponents how parliamentary buildings are constructed as sites of work debate and the nation in miniature and how politicians and officials engage with hierarchies continuity and change This book also proposes how to study parliaments through an anthropological lens while in conversation with other disciplines The dive into ethnographies from across Africa the Americas Asia Europe the Middle East and the Pacific Region demolishes hackneyed geo political
