INTRO We do not know prehistoric times unless we travel from the present then backwards We have to start from where we are and travel far away back in time Unless we can trace a movement a lineage a progression an evolution a devolution any pathway then it

would be like trying to follow the course of a skipping stone and being unable to see where it connects under the water we must study the formation of the ripples We connect the dots through historical facts the significant events and activities and project those further backwards in time to the prehistoric vestiges of assumed memory What we find today is a great and material civilization covering most of the Earthly world which is being controlled and ruled over by something which is a force known as the global cf preview Cracking the Timeline Ruth Rosemary,2023-03-10 History versus science history versus history or history with science who has it right In this book you will be challenged to think differently about BC history Discover a calendar that is over five thousand years old and how the younger calendars go with it in this timeline Discover a reason why different dates are assigned to the same event Explore why the Second Temple of Judaism which stood partly BC and partly AD for about 420 years can have a start date in the 500s BC and 300s BC Discover concurrent event reading of the Bible as it relates to history Discover the accuracy preserved by forefathers and more With the use of the Gregorian calendar beginning in the 1500s we read BC history with dates that go backward as events move forward This is exactly the opposite of our current dates where the dates move forward as events move forward In this book there is a BC to AD timeline of the Bible some history and some prophesied events As you read you will go on a journey through history and put together past and present through what was written down about events and prophesied events 157 **The Conflict of the Ages**
