Annual Review of Comparative and International Education 2015 Alexander W. Wiseman, Emily Anderson, 2016-01-08 The goal of the ARCIE volume is to examine current perspectives and future directions for the field using several essays as a context for discussion and analysis **Contextualizing and Organizing Contingent Faculty** Ishmael I.

Munene, 2018-02-15 Contextualizing and Organizing Contingent Faculty Reclaiming Academic Labor in Universities seeks to develop a counterculture that eschews the neoliberal ideology and interloping market values in higher education More than merely lamenting the disruptive effects of these marketplace values in higher education institutions it develops both theoretical insights and practical organizing strategies pertinent to challenging new academic capitalist values and behaviors Contributors local and international present cases from various institutions to illuminate how national trends concerning contingent faculty are articulated implemented and challenged at the local level They present organizing strategies which are analyzed from an interdisciplinary perspective providing a thorough and comprehensive view of the contingent labor movement This book will provide useful lessons to a broad array of audiences in universities labor movements and national and local governments Handbook of Cultural Studies and Education Peter Pericles Trifonas, Susan Jagger, 2018-11-15 The

Handbook of Cultural Studies in Education brings together interdisciplinary voices to ask critical questions about the meanings of diverse forms of cultural studies and the ways in which it can enrich both education scholarship and practice Examining multiple forms mechanisms and actors of resistance in cultural studies it seeks to bridge the gap between theory and practice by examining the theme of resistance in multiple fields and contested spaces from a holistic multi dimensional perspective converging insights from leading scholars practitioners and community activists Particular focus is paid to the practical role and impact of these converging fields in challenging rupturing subverting and changing the dominant socio economic political and cultural forces that work to maintain injustice and inequity in various educational contexts With contributions from international scholars this handbook serves as a key transdisciplinary resource for scholars and students interested in how and in what forms Cultural Studies can be applied to education *Kenyan English* Alfred

Buregeya, 2019-08-05 English in Kenya is a stable post colonial variety that is used as an inter ethnic lingua franca in private domains is the medium of instruction as well as the language spoken in parliament and court rooms Yet so far no comprehensive research monograph on Kenyan English has been published that surveys its characteristic linguistic features The present book closes this gap by giving a full description of the characteristic linguistic features of Kenyan English The book provides an in depth overview of Kenyan English phonetics phonology morphology syntax semantics and pragmatics and also gives a meticulous account of the diachronic evolution of this post colonial variety *The Responsibility to Protect and the International Criminal Court* Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect R2P and the International Criminal Court ICC were applied in Kenya In the aftermath of the disputed presidential

election on 27 December 2007 Kenya descended into its worst crisis since independence. The 2007-08 post-election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute. Despite efforts to ensure compatibility between R2P and the ICC, the two were far from coherent in this case as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators. This book will highlight how the African Union sponsored mediation process effectively brought an end to eight weeks of bloodshed while simultaneously entrenching those involved in orchestrating the violence. Having secured positions of power, politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels, eventually leading the cases against them to unravel. As this book will reveal, by utilising the machinery of the state as a shield against prosecution, the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract. This book will be of interest to students of the Responsibility to Protect, humanitarian intervention, African politics, war and conflict studies, and IR Security Studies in general.

The Public Economy in Crisis June A. Sekera, 2016-07-04 This Brief proposes a new theory of public economics which deemphasizes reliance on the free market and affirms the importance of public goods and services within the context of the democratic process and constitutional governance Public non market production makes up from a quarter to more than half of all economic activity in advanced democratic nation states Yet by imposing market precepts on the public domain as mainstream economics political science and public administration do public governing capacity is weakened and the democratic system suffers Agencies originally created to meet public needs are being warped into entities whose purpose is to generate revenue and in some cases deliver private profits at public expense Drawing on classic public finance literature this book illustrates the differences between public economy and the market model and why those differences matter Building on this the Brief sketches the elements of a new theory of the public non market and illuminates its connections to the delegation of power and collective provision of resources from the polity This book will be useful to scholars of public economics political science and public administration as well as policy makers and those working in the public sector

Biostimulants in Agriculture Youssef Roupheal, Giuseppe Colla, 2020-03-24 *An Uncertain Age* Paul Ocobock, 2017-03-27 In twentieth century Kenya age and gender were powerful cultural and political forces that animated household and generational relationships They also shaped East Africans contact with and influence on emergent colonial and global ideas about age and masculinity Kenyan men and boys came of age achieving their manhood through changing rites of passage and access to new outlets such as town life crime anticolonial violence and nationalism And as they did the colonial government appropriated masculinity and

maturity as means of statecraft and control In *An Uncertain Age* Paul Ocobock positions age and gender at the heart of everyday life and state building in Kenya He excavates in unprecedented ways how the evolving concept of youth motivated and energized colonial power and the movements against it exploring the masculinities boys and young men debated and performed as they crisscrossed the colony in search of wages or took the Mau Mau oath Yet he also considers how British officials own ideas about masculinity shaped not only young African men s ideas about manhood but the very nature of colonial rule *An Uncertain Age* joins a growing number of histories that have begun to break down monolithic male identities to push the historiographies of Kenya and empire into new territory *From Pariah to Priority* Elise Carlson

Rainer,2021-11-01 *From Pariah to Priority* gives a unique insider perspective that explains the unexpected incorporation of LGBTI rights into the United States and Swedish foreign policies From original data case study analysis and interviews with high level officials within the State Department Swedish Foreign Ministry and international institutions former diplomat Elise Carlson Rainer provides insights from leaders responsible for shaping emerging global LGBTI policies The research findings highlight the advocacy process of reforming US and Swedish foreign policy priorities to include LGBTI rights shedding light on how normative values evolve in foreign affairs The book examines Sweden as the first country to implement a feminist foreign policy and commence formal LGBTI diplomacy Through this lens Rainer contextualizes the diplomatic precedent of revamping foreign assistance to Uganda when lawmakers there proposed a death penalty law for homosexuality Scrutinizing effective tactics for advocacy to influence foreign policy *From Pariah to Priority* explores not only current debates in the area of gender and sexuality in foreign affairs but also offers pragmatic policy recommendations for civil society organizations foreign policy leaders and human rights practitioners *Africa and the ICC* Kamari M. Clarke,Abel S. Kottnerus,Eefje de Volder,2016-10-27

By investigating how the International Criminal Court ICC is portrayed in Africa this book highlights how perceptions of justice are multilayered *Conflicted Democracies and Gendered Violence* Angana P. Chatterji,Shashi Buluswar,Mallika Kaur,2016-11-04 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems medical regimes and social institutions The period after

the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence The essays in this volume attempt to trace a history of sexual violence in Nepal look at the responses of women s groups and society at large and suggest how this serious and wide ranging problem may be addressed The Palgrave Handbook of African Social Ethics Nimi Wariboko, Toyin Falola, 2020-03-30 This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa s ethical life and thought Teaching in Times of Crisis Mich Yonah Nyawalo, 2021-01-20 Teaching in Times of Crisis explores how comparative methods which are instrumental in reading and teaching works of literature from around the world also provide us with tools to dissect and engage the moments of crises that permeate our contemporary political realities The book is written in the form of a series of classroom reflections or memos capturing the political environment preceding and proceeding the 2016 US presidential election It examines the ways in which the ethics involved in reading comparatively can be employed by teachers and students alike to map and foster lifelines for cultural sustainability to borrow the term from Djelal Kadir s Memos from the Besieged City that are essential for creating and maintaining a healthy multicultural society Nyawalo achieves this through comparative readings of postcolonial films LGBTQ texts French slam poetry as well as episodes from Star Trek The Next Generation among other materials The classroom reflections captured in each memo are shaped by the Appalachian setting in which the discussions and lessons took place Inspired by this setting the author develops pedagogic ethics of comparison a method of reading comparatively which privileges the local educational spaces in which students find themselves by mapping the contested cultural politics of Appalachian realities onto a world literature curriculum
