Le Syndrome De Vichy:

The Vichy Syndrome Henry Rousso, 1991 From the Liberation purges to the Barbie trial France has struggled with the memory of the Vichy experience a vivid memory of defeat occupation and repression How has this proud nation dealt with les annees noires What is the collective memory of those few years what have the French chosen to remember what have they chosen to conceal Blood in the City Richard D. E. Burton, 2001 Instead of adhering to conventional chronological lines Blood in the City is structured topologically around a number of major Parisian sites of memory including Place de la Concorde Sacre Coeur and the Eiffel Tower For thirty years Burton has visited and revisited Paris criss crossing the streets on foot and lived with great nineteenth and twentieth century literary depictions of the city Drawing on historical literary visual anthropological and psychological sources he develops a wide ranging account of violence in modern French politics In so doing he provides powerful insights into political violence scapegoating the idea of sacrifice and the widespread French obsession with conspiracy BOOK JACKET **Vichy's Afterlife** Richard Joseph Golsan, 2000-01-01 One of the distinctive features of the Vichy Syndrome the persistence of the memory of the Vichy regime in French political and cultural life is that it has been extremely difficult for an authoritative historical discourse to impose itself Why does Vichy and all that the name entails fascinate and even obsess the French inflecting not only discussions of the past but of the present as well In Vichy's Afterlife Richard J Golsan explores the complexities of some of the most provocative episodes of Vichy's curious persistence in France's national consciousness He argues that each of these episodes events and scandals constitutes a crossroads where history and counterhistory different or competing versions of the past encounter one another often with explosive and even destructive consequences , **God's Eugenicist** Andrés Horacio Reggiani, 2007 The temptations of a new genetically informed eugenics and of a revived faith based world wide political stance this study of the interaction of science religion politics and the culture of celebrity in twentieth century Europe and America offers a fascinating and important contribution to the history of this movement The author looks at the career of French born physician and Nobel Prize winner Alexis Carrel 1873 1944 as a way of understanding the popularization of eugenics through religious faith scientific expertise cultural despair and right wing politics in the 1930s and 1940s Carrel was among the most prestigious experimental surgeons of his time who also held deeply illiberal views In Man the Unknown 1935 he endorsed fascism and called for the elimination of the unfit The book became a huge international success largely thanks to its promotion by Readers Digest as well as by the author's friendship with Charles Lindbergh In 1941 he went into the service of the French pro German regime of Vichy which appointed him to head an institution of eugenics research His influence was remarkable affecting radical Islamic groups as well Le Pen's Front National that celebrated him as the founder of ecology **Patterns of Violence Behind the Lines in Europe's Civil Wars** Francisco J. Leira-Castiñeira, John Sakkas, 2025-09-30 This edited collection examines the violence experienced by non combatants during the civil wars which took place in Europe in the first half of the twentieth century The

determinants of violence in civil wars are highly complex and variable By focusing on both the victims and perpetrators of violence in eight European countries including Russia Ireland France and Spain the book explores what happened when differing groups within a polity clashed and in which ways internal conflicts manifested themselves and permeated societies Divided into two parts the chapters firstly identify and analyse how rearguard violence was produced and exercised during the European civil wars and secondly they examine the violence perpetrated by and against women Shedding light on the violence that was inflicted upon European civilians in the early to mid twentieth century this book presents insights for historians of Europe political scientists and international relations scholars alike **N"mes at War** Robert

Zaretsky,2010-11-01 Identity Papers Steven Ungar,Tom Conley,1996-01-01 What does citizenship mean What is the process of naturalization one goes through in becoming a citizen and what is its connection to assimilation How do the issues of identity raised by this process manifest themselves in culture These questions and the way they arise in contemporary France are the focus of this diverse collection The essays in this volume range in subject from fiction and essay to architecture and film Among the topics discussed are the 1937 Exposition Universelle films dealing with Vichy France Fran ois Truffaut s Histoire d Ad le H the war of Algerian independence and nation building under Fran ois Mitterrand Amazon com **A History of Political Trials** John Laughland,2008 This is a formidable and well documented counterblast to a developing modern orthodoxy expressing a point of view that many readers will not even have suspected existed let alone read Anthony Daniels Spectator A useful and controversial contribution to the debate about victor s justice and a valuable warning that international war crimes tribunals need to operate with precision and care Jonathan Steele Guardian The rapid development of the use of international courts and tribunals to try heads of state for genocide and other crimes against humanity has been welcomed by most people because they think that the establishment of international tribunals and courts to try notorious dictators represents a triumph of law over impunity In A History of Political Trials John Laughland takes a very different and controversial view namely that political trials are inherently against the rule of law and almost always involve the abuse of process as well as being seriously hypocritical By means of detailed consideration of the trials of figures as disparate as Charles I Louis XVI Erich Honecker and Saddam Hussein Laughland shows that the guilt of the accused has always been assumed in advance that the judges are never impartial that the process is always unfair and biased in favor of the prosecution that the defense is not permitted to use all the arguments at its disposal and that often the accusers have done exactly what they accuse the defence of having done All the trials he recounts were marked by arbitrariness and injustice often gross injustice Although the chapters are short and easy to read they are the fruit of formidable erudition and wide reading The general reader will be forced by this book to re examine the ideas on this subject and will be much less sanguine about the possibility of bringing dictators and other leaders to genuine justice John Laughland lives in Bath and is an author journalist and has been a university lecturer in France He has published The Tainted Source The Undemocratic

Affective Genealogies Elizabeth Jane Bellamy, 1997-01-01

Affective Genealogies is an incisive contribution to the current reassessment of postmodern culture and theory Elizabeth J Bellamy examines how the Holocaust and Jews have been represented in a wide range of French poststructuralist works Central to Bellamy's study is her questioning of whether the non-essentializing discourse of postmodernism can ever enable a genuine working through to an understanding of the horror of the Holocaust She concludes that much recent French thought encrypts but does not fully confront the trauma of the Holocaust Bellamy begins by surveying contemporary writings on Judaism the Holocaust and the crisis of memory She then closely examines recent French debates about Martin Heidegger's relationship to the Nazis focusing on Jacques Derrida's controversial defense of Heidegger's works Another chapter examines the works of Philippe Lacoue Labarthe and Jean-Luc Nancy noting the ambiguous ways in which they portray the roles played by Jews in modern intellectual history The last chapter examines the representation of Judaism in Jean-François Lyotard's writings Bellamy's book contributes to the recent revaluation of French postmodernism and to current studies on the representation of Jews and the Holocaust in Western literature and thought As Sander Gilman has noted the writers and works that were generated in France from Sartre to Lyotard have had a seminal role in shaping the international philosophical discourse about Jewish identity Affective Genealogies is an essential guide to that controversial and influential philosophical movement Elizabeth J Bellamy is an associate professor of English at the University of New Hampshire She is the author of Translations of Power Narcissism and the Unconscious in Epic History
