Munekata,Mirian Pateiro,Daniel Franco,José M. Lorenzo,2021-09-02 The processing of pork is a common technological practice that modifies the taste flavor texture and color of raw pork meat Due to pork s accessible price and versatility the manufacture of pork products to offer a variety of options to consumers is an important strategy of the meat industries in this sector to improve profits and expand into new markets at the local regional and international levels The diversity of pork products reflects the diversity and history of many local cultures around the world as well as a growing interest in preserving traditional processing practices *Pork Meat Quality and Processed Meat Products* delves into the various kinds of pork and the methods used to prepare it for consumption including fresh meat products fermented sausages dry cured products blood sausages and cooked sausages Each category starts with a specific raw material entire cut vs minced pork meat to which is added a unique combination of ingredients e g sodium chloride starter cultures blood seasoning and spices The method of processing such as salting drying thermal processing and fermenting takes consumer tastes and storage needs into account as well as how each product will be consumed cooked sliced spread

and as an ingredient in other dishes for instance Consequently a wide range of products made from pork are currently being produced worldwide Added to this is the increasing importance of ingredients and health factors to consumers the resulting demand for products that address specific health concerns is having a significant impact on research into and the production of pork meat products Key Features Comprehensively presents and discusses the wealth of information about pork products Includes specific details about the processing quality of final products and innovation in the industry Presents innovative health oriented approaches to making traditional and commercial pork products Discusses healthier pork meat products that address consumer trends and government recommendations The production of health oriented pork products is an emerging and promising investigation area with a direct impact on the current market for meat products *Game meat hygiene* P. Paulsen, A. Bauer, F.J.M. Smulders, 2023-08-07 Increased consumers demand for game meat is driven by various motivations In order to fulfil this demand for safe wholesome and nutritious meat management of wild game and establishment of adequate supply chains are required Identification and assessment of hazards of biological and non biological origin help to design and implement effective control measures This requires cooperation of the stakeholders of food safety authorities and scientists Game meat safety extends from the wildlife human interface to wildlife livestock interactions as regards transfer of pathogenic agents or transfer of residues Thus assurance of game meat hygiene is a multidisciplinary task and involves tackling a variety of safety and quality issues for a number of species under diverse living conditions and modes of harvesting This is reflected in the contents of this volume with 19 contributions on free living or farmed game and on invasive species namely the warthog in South Africa This volume is the third in a series on safety and quality assurance along the game meat chain following a from forest to fork approach Like its predecessors it is targeted at scientists in academia and industry graduate students as well as to governmental officials in veterinary public health and food safety *Cumulated Index to the Books* ,1999 *The Leatherneck* ,1997 **Air Force Magazine** ,2008
