Peppered with fascinating case studies from an eclectic spectrum of industries ranging from IT Consumer Goods Automotive Aerospace Banking Petrochemicals and Food Beverages *Pitch It* provides the essential blueprint for creating and sustaining winning organizations. *Pitch It* is a great compilation of winning strategies. Greatly enjoyed following winning habits through the lenses of two different arenas. I love K Srinivas President Consumer Business Bharti Airtel Limited. A great assembly of vignettes of the game and its relevance in business. Loved each chapter makes you want to go back to it each time. Unputdownable. S V Nathan Director Deloitte. *Pitch It* has a foreword by Kiran Mazumdar Shaw and epilogue by former Indian cricketer coach Venkatesh Prasad. Dev Prasad's debut book *KRISHNA A Journey Through the Lands Legends of Krishna* was longlisted for 2010 Vodafone Crossword Award. The CTC Reporter Centre on Transnational Corporations (United Nations), 1987. **Santro** BVR Subbu, 2018-01-05 There's no business like the car business. Within months of its launch in late 1998 with every well-known global automobile brand jockeying for a foothold in a small car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro emerged as a force to reckon with. The first car to be conceptualized and designed for and then developed and manufactured in India, the Sunshine Car has over a period of sixteen years set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro, The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference, and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful, and delightfully engaging, this is a business story with a difference about a car like no other. **Managing in Recovering Markets** S. Chatterjee, N.P. Singh, D.P. Goyal, Narain Gupta, 2014-10-27 The changing dynamics of business worldwide have led organizations to look beyond traditional managerial practices while at the same time attempting to retain their core competitive advantages. This development has called upon academicians and practitioners alike to reassess the different aspects of business management such as macroeconomic variables, the nature of the market, the changing features of the workplace, the new work ethos, and/or employer-employee exchanges. In this context, the book provides essential insights on industry innovations, academic advances, and policy movements with regard to recovering markets in India and around the globe. The individual papers highlight potential avenues that could allow industry

to better understand and respond to the global crisis The book collects research papers presented at the Global Conference on Managing in Recovering Markets GCMRM held in March 2014 Seven international and 120 national business schools and management universities were represented at the conference the first in a series of 13 planned under the GCMRM agenda for 2014 17 The book includes more than 30 research papers chosen from a pool of 118 presented at the conference all of which have undergone a rigorous blind review process
