*Monotheism and Faith in God* Ian G. Wallis, 2020-12-24 After offering a brief overview of the role of faith within Judaism Christianity and Islam an interdisciplinary analysis of faith belief belief systems and the act of believing is undertaken The debate over the nature of doctrine between George Lindbeck and Alister McGrath brings into focus four ways in which beliefs can be employed expressive interpretative formative and referential relational An analysis of monotheistic belief ensues which demonstrates how it can function meaningfully in each of these

modes including the last where insights from phenomenology and relational ontology as well as philosophical theology favour a participatory approach in which God is encountered not as an object of investigation but as that transcendent Other whose worship is the fulfilment of human being The study concludes by highlighting convergences between the nature of faith presented in the initial scriptural overview and that developed throughout the rest of the study

*Tracing the Contours of Faith* Wayne Fehr, 2024-09-18 This book is addressed to Christian believers who are feeling the ambiguities and challenges of a life of faith Many of them may be uncertain about the meaning of the faith which they profess The familiar words that they hear in sermons and prayers seem at times to belong to a reality far removed from the actual world they live in They need to discover a meaning of their faith that they can relate to their own life experience and their general knowledge of the world This book is a collection of brief essays written in response to specific questions about the Christian faith's vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian and priest writing in a non technical way for fellow believers His purpose is to make the best insights of sound theology available to them to minister to their faith life Although many of the essays are limited in scope there is a coherent understanding of the Christian faith that underlies all of them Each essay is simply articulating part of that understanding in response to a specific question

Divine Faith John R.T. Lamont, 2021-06-30 Using philosophical and theological reflection this book explores the rational grounding for Christian faith inquiring into the basis for believing the Christian revelation and using the answers to give an account of Christian faith itself Setting the discussion in the context of the history of views on revelation *Divine Faith* makes an original contribution to historiography and draws out hitherto unnoticed affinities between Catholic and Protestant thought Re-examining the question from the beginning by asking how it is that the Christian revelation is made Lamont then looks at the fundamental philosophical issues concerning the nature of knowledge and the reasonableness of belief in testimony that are crucial to an understanding of Christian belief Through theological considerations on the relations of grace and the church and new advances in the philosophy of belief in testimony and how God speaks to communicate the Christian religion this book offers an original and powerful account of the nature of Christian belief

**Fundamentals of the Faith** Peter Kreeft, 2009-10-27 Kreeft considers all the fundamental elements of Christianity and Catholicism explaining defending and showing their relevance to our life and the world's yearnings Here is a book to help you understand your faith more fully and to explain it to others more winningly Like every religion this faith has three aspects corresponding to the three parts of the soul and filling the innate needs of all three parts Kreeft uses these three divisions as the basic outline for his Christian apologetics First every religion has some beliefs whether expressed in creeds or not something for the intellect to know Second every religion has some duty or deed some practice of program some moral or ethical code something for the will to choose Finally every

religion has some liturgy some worship some church something for the body and the concrete imagination and the aesthetic sense to work at Creed Code and Cult Words Works and Worship are a most useful way of outlining any religious faith including the Catholic Faith of Christians These essays were written for Catholics by a Catholic But I believe that nearly everything I say here will be found by the orthodox Biblical Protestant reader to be his faith as well That solid and substantial core that C S Lewis called mere Christianity Peter Kreeft
