Faithful English Edition:

Faithful to the Future Brother Emile of Taizé, 2013-11-21 *Faithful to the Future* examines the true nature of Christian Tradition and particularly how it implies a fidelity not only to the past but to the future as well tradition appears to be inseparable from creativity and reform Congar's sense of the future and his conviction that something very important is happening in history led him to re-emphasize forgotten dimensions of Christian tradition especially those that value the human person When Congar reflected on Church authority and how it is best exercised he was not thinking about a power that curtails freedom Seeking to rediscover what is specific to Christianity he described authority as a reality that is at the service of growth where paying attention to the unknown and the unexpected is of the utmost importance Congar was one of the greatest artisans of Vatican II and his writings are characterized by the urgent call for the reforms made necessary by a changing world and by an understanding of catholicity a sense of the Church that is not sectarian but that lives and thinks according to the whole This volume explores the four themes that are prominent in Congar's writings namely tradition reform catholicity and authority The book does not assume a detailed knowledge of Congar's writings but addresses a difficulty that is frequently encountered in the present time no one better than Yves Congar has shown that the Church is not a system *Теорія і практика перекладу (аспектний переклад). The British Controversialist, 1861. Ethics and Aesthetics of Translation Harriet Hulme, 2018-11-19. *Ethics and Aesthetics of Translation* engages with translation in both theory and practice as part of an interrogation of ethical as well as political thought in the work of three bilingual European authors: Bernardo Atxaga,

Milan Kundera and Jorge Semprín In approaching the work of these authors the book draws upon the approaches to translation offered by Benjamin Derrida Ricœur and Deleuze to highlight a broad set of ethical questions focused upon the limitations of the monolingual and the democratic possibilities of linguistic plurality upon our innate desire to translate difference into similarity and upon the ways in which translation responds to the challenges of individual and collective remembrance Each chapter explores these interlingual but also intercultural interrelational and interdisciplinary issues mapping a journey of translation that begins in the impact of translation upon the work of each author continues into moments of linguistic translation untranslatability and mistranslation within their texts and ultimately becomes an exploration of social political and affective untranslatability In these journeys the creative and critical potential of translation emerges as a potent often violent but always illuminating vision of the possibilities of differentiation and connection generation and memory in temporal linguistic cultural and political terms
