Steers,2013-08-21 American business folklore is

awash with the adventures of successful entrepreneurs Still most of these stories are about Americans neglecting important and courageous entrepreneurs from other countries Made in Korea recounts the story of how Chung Ju Yung rose from poverty to build one of the world s largest and most successful building empires Hyundai through a combination of creative thinking tenacity timing political skills and a business strategy that few competitors ever understood Chung entered the shipbuilding business with no experience and went on to create the world s largest shipyard He began making automobiles

when foreign experts unanimously predicted he would fail and he started a global construction company that has built some of today's greatest architectural wonders. He even convinced the International Olympic Committee to select South Korea over Japan as the site for the highly successful 1988 Olympics. Unlike most CEOs of major firms, Chung has always preferred the company of his workers to that of the global executive elite. Hard work, creativity, and a capacity to never give up: this is the essence of Chung's life. In each of his ventures, he exhibited a sheer determination to succeed regardless of the obstacles, and he worked tirelessly to instill this drive in all of his employees. Even today, in the midst of Korea's worst economic crisis in over four decades, Chung's company is busy implementing plans to emerge as an even stronger contender in the world economy. Illustrated with 32 pages of colour photographs not previously seen in the West, including photos of Chung's recent historic visit to North Korea in 1998, *Made in Korea* takes stock of Chung's entire life, highlighting both his contributions to society and the lessons his work can teach to aspiring entrepreneurs. **Lemon-Aid New Cars and Trucks 2011** Phil

Edmonston, 2010-11-11. As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality control problems, *Lemon Aid* guides, steers the confused and anxious buyer through the economic meltdown, unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for more than 40 years, pulls no punches. In this all-new guide, he says Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of zombie vehicles. Jaguar, Land Rover, Saab, and Volvo: Mercedes-Benz, rich cars, poor quality. There's only one Saturn you should buy. Toyota: enough apologies when you mess up, fess up. ***Lemon-Aid New Cars and Trucks 2012*** Phil Edmonston, 2011-01-01. Phil Edmonston, Canada's automotive Dr. Phil, pulls no punches. He says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide, he says Audis are beautiful to behold but hell to own: biodegradable transmissions, rodent snack wiring, and mind-boggling depreciation. Many 2011-12 automobiles have chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that killed its own electric car more than a decade ago. You can save 2,000 by cutting freight fees and administrative charges. Diesel annual urea fill-up scams can cost you 300, including an 80 handling charge for 25 worth of urea. *Lemon Aid's 2011-12 Endangered Species List*: the Chinese Volvo, the Indian Jaguar, and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki.

Lemon-Aid New Cars and Trucks 2013 Phil Edmonston, 2012-12-01. Canada's automotive Dr. Phil says there's never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a perfect storm. There's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a

more competitive Japanese auto industry that's still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold: Which cars and trucks are wallet friendly and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM's 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.
