Third Series* Library of Congress. Copyright Office,1976 **The Strategy of Desire** Ernest Dichter, Ernest Dichter is famous as one of the founding fathers of motivational research In applying the social sciences to a variety of problems Dichter emphasized new approaches to problem solving advertising politics and selling and issues of social significance such as urban renewal productivity and drug addiction As an author and corporate adviser he used psychoanalytic theory and depth interviewing to uncover unconsciously held attitudes and beliefs His goal was to help explain why people act the way they do and how positive behavioral change might be achieved In *The Strategy of Desire* Dichter both counters the argument that motivational research amounts to manipulation and shows how the understanding and modification of human behavior is necessary for progress Dichter's survey and analysis of behavior ranges widely He examines everyday matters of product choice as well as such broad civic issues as voter participation religious toleration and racial understanding He shows that in order to achieve socially constructive goals it is necessary to move beyond theological exhortation which takes an unrealistic view of human morality as well as beyond the limits of empirically oriented social science research which only deals in appearances Dichter sees

human action as rooted in irrational and often unconscious motivation which can usually be uncovered if the correct approach is used In his consumer research he analyzes the nonutilitarian importance of objects in everyday life as well as how products and materials become bound with emotional resonance or acquire different meanings from different contexts or points of view Dichter shows that success depends on the satisfaction of desires and a movement beyond the ethic of work and saving Arguing that in an increasingly technological world progress and social harmony are materially based he advocates a morality of the good life in which prosperity and leisure lead to greater human self assurance in the face of change First published in 1960 The Strategy of Desire is especially timely in the age of the Internet and ever increasing effect of sophisticated computer technology on consumer culture Ernest Dichter 1907 1991 was consulting psychologist for the Columbia Broadcasting System from 1943 to 1946 president of the Institute for Motivational Research and founder of Ernest Dichter Associates International His books include The Psychology of Everyday Life Handbook of Consumer Motivation Motivating Human Behavior and The Naked Manager Arthur Asa Berger is professor of broadcast and electronic communication arts at San Francisco State University **Catalog of Copyright Entries.
