Joint Fleet Forces Maintenance Manual:

Impacts of the Fleet Response Plan on Surface Combatant Maintenance Roland J. Yardley, 2006 To achieve a more responsive and more readily deployable fleet of surface combatants the Navy adopted the Fleet Response Plan FRP in 2003 to replace its traditional ship maintenance and readiness cycle The goal of the FRP is to have non deployed ships achieve a high level of readiness earlier and to maintain high readiness longer so that they can deploy on short notice However a challenge of implementing the FRP is establishing the processes and procedures as well as a ready industrial base to facilitate maintenance planning and execution to meet the now unpredictable FRP surge requirements and maintenance demands By concentrating specifically on the DDG 51 class of destroyers the authors of this report look at the effects the FRP has had thus far and determine whether maintenance resources are meeting maintenance demands and whether related industry resources have been coordinated effectively Overall the authors determine that the initiative appears to have promising effects but that more time will be needed to assess maintenance supply and demand apart from the increase of funding tied to military operations post September 11 2001 *United States Code: Title 10: Armed forces [sections] 1431-7921* ,2013 Preface 2012 edition The United States Code is the official codification of the general and permanent laws of the United States The Code was first published in 1926 and a new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First session enacted between January 3 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code on a title by title basis into positive law The 2012 edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office John A Boehner Speaker of the House of Representatives Washington D C January 15 2013 Page VII United States Code United States, 2018 **Duncan Hunter National Defense Authorization Act for Fiscal Year 2009** United States. Congress. House. Committee on Armed Services, 2008 *A Methodology for Estimating the Effect of Aircraft Carrier Operational Cycles on the Maintenance Industrial Base* Roland J. Yardley, 2007 Over the next two decades the

United States Navy will at any one time have a fleet of ten to 12 aircraft carriers Of these two or three will be continuously deployed and on station at any one time in its major overseas operational areas of the Mediterranean the Indian Ocean and Persian Gulf region and the Western Pacific in support of combatant commanders In addition the Navy intends to surge carriers including those already deployed so that a total of six carriers can be provided to combatant commanders within 30 days and another carrier within 90 days The ability of the Navy to meet all these requirements is constrained both by the six month limit on deployment length and by the intensive training and maintenance demands of aircraft carriers The Navy has considered the six month limit on deployments and the predictability of Carrier Strike Groups CSGs rotation key to maintaining forward presence while meeting personnel recruiting and retention goals In addition maintenance is constantly being performed on aircraft carriers with nearly a third of a carrier s lifetime being spent either preparing for or actually in depot level repair availabilities in which it is not deployable *United States Statues at Large Volume 122, 2008, Parts 1-4* , The United States Statutes at Large typically referred to as the Statutes at Large is the permanent collection of all laws and resolutions enacted during each session of Congress The Statutes at Large is prepared and published by the Office of the Federal Register OFR National Archives and Records Administration NARA **U.S. Coast Guard Engineering, Electronics & Logistics Quarterly** ,2005 **United States Code** Congress,2010 The United States Code 2006 Edition contains the General and Permanent Laws of the United States Enacted Through the 109th Congress Ending January 3 2007 the Last Law of Which was Signed on January 15 2007 **Title 10, United States Code** United States,2011 **United States Code** ,1941
