Privatizing Correctional Institutions Gary W. Bowman,Simon Hakim,Paul Seidenstat, With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen

to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists *Cost Engineering* ,1996 Executive Housekeeping Today ,1996 *Commercial Property Inspection Checklist Template Journals for All Staff*,2017-07-27 Blank Building Inspection Log Get Your Copy Today Large Size 8 5 inches by 11 inches Enough Space for writing Include sections for Inspection Date Chief Inspector Building Location Checklist Building Interior Checklist Building Exterior Checklist Building Electrical System Checklist Building Fire Protection Checklist Building Inspection Report Buy One Today and have a record of Building Inspection **Monthly Catalogue, United States Public Documents** ,1995 **Air Force Magazine** ,1991-07
