**Hospitality Retail Management** Conrad Lashley, 2009-11-03 Hospitality Retail Management provides students and managers with a practical guide to managing units in hospitality retail organizations. Customers rely on a particular chain of hotels, restaurants or pubs to provide the same level of service and environment across the board. This standardised service provides the customer with the security of knowing what to expect from that particular organisation. However, this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market. There is a growing realisation that there is greater profitability if the chain can offer both standardised

services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text Hospitality Supervision and Leadership Level 3 Patricia Paskins,Gary Farrelly,Ketharanathan Vasanthan,David Foskett,Lindsay Steele,2015-07-31 Prepare for assessment and master the skills and knowledge you need to succeed as a hospitality and catering supervisor with this support resource Covering all of the latest mandatory and most popular optional units with a strong focus on preparation for assessment this will be an essential resource for anyone working towards the Level 3 NVQ Diploma in Hospitality Supervision and Leadership whether in college or in the workplace It also provides support for those completing the Hospitality Supervision and Leadership apprenticeship Provides all of the essential knowledge and skills any supervisor working in the hospitality industry will need from supporting motivating and developing staff to customer service skills problem solving and controlling resources Develops understanding of the assessment requirements with clear explanations of all criteria Helps you to build your portfolio with guidance on suitable evidence and activities that provide assessment opportunities Prepares you for professional discussions and questioning with knowledge checks at the end of each unit to test your understanding
