Tobin,2014-09-10 Walter Prescott Webb became one of the best known interpreters of the American West following the publication of The Great Plains in 1931 That book remained one of the outstanding studies of the region for decades and attracted considerable attention over the years for its unusual emphasis on the impact of geographic factors on the process of settlement Using manuscript sources some of which had not previously been available Gregory M Tobin has traced the elements that went into the planning and writing of The Great Plains and that account for its distinctive approach to the writing of a regional history Tobin emphasizes two aspects of Webb s life that molded the historian s outlook his early family life and community connections in West Texas and his admiration for the ideas of scholar Lindley Miller Keasbey Webb reacted strongly against the assumption that the only cultural values of any real worth emanated from the urban and sophisticated East he was determined to write the history of his own people in a way that would reveal the scale of their anonymous contribution to American civilization By reverting to Keasbey s stress on the relationship between natural environment and social institutions Webb broadened his study to take in what he believed to be a distinct geographic environment The result was The Great Plains an assertion of individual and regional identity by a man with a personal stake in establishing the image of a

distinctive Plains civilization Although *The Making of a History* is not a full biography of Walter Prescott Webb it is the first biographically oriented study of a man regarded as one of the twentieth century's major western historians It places his development within the framework of his intellectual and social setting and in a sense subjects his career to the same type of scrutiny that he advocated as the basis of the study of evolving cultures

Testing Times Willis Richard, 2014-02-07 This book focuses on the delivery of public examinations offered by the main examining boards in England since Victorian England The investigation reveals that the provision of examinations was as controversial in the nineteenth century as it is today particularly since the government is now determined to bring in reform The issues of grade inflation the place of coursework in marking and the introduction of technological change all feature in this book Educational policy is primarily examined as well as some reference to the global scene The study analyses archival material from a wide range of sources including those records stored at the National Archives and the London Metropolitan Archives An emphasis is placed upon the various institutions that contributed to the process including the Royal Society of Arts the London Chamber of Commerce the City of Guilds of London Institute and the University of London Attention is given to the findings of the Taunton Commission and the Bryce Commission and shorter reports such as the Northcote Trevelyn Report which served to radicalise entry and recruitment to the Civil Service The modern GCSE and the plans for I levels are considered and key observations are made about the efficacy of those examinations offered by Oxford and Cambridge universities and O levels A levels and NVQs The reader is given every opportunity to benefit enthusiastically in this account of examinations and those engaged in education whether teachers examiners students or administrators will be able to gain useful insights into the workings of the examination system
