Epistemología y metodología Juan Samaja, 2007 *Discapacidad e ideología de la normalidad* Ana Rosato y María Alfonsina Angelino (comps.), 2009 **Racionalidad científica y discursos prácticos** Carlos Manuel González, 2002

Epistemología y metodología Juan Samaja, 1995 Metodologías de investigación jurídica : experiencias y desafíos del oficio de investigar en derecho Antonio Felipe Barreto Roza, Eleonora Lozano Rodríguez, 2021-10-01 A pesar de que existen numerosas publicaciones que estudian la metodología en el campo jurídico son muchos más los textos de derecho que abordan la discusión directa de los contenidos. Ante el evidente predominio bibliográfico del que sobre el cómo varios profesores y profesoras de la Facultad de Derecho de la Universidad de los Andes decidieron escribir Metodologías de investigación jurídica para preguntarse cómo realizan, aprenden y reflexionan acerca de las investigaciones que componen sus propias agendas académicas incluyendo las dimensiones teóricas, prácticas y éticas all presentes. Así esta obra se ubica en el universo de las formas metodológicas que suelen acompañar conscientemente o inconscientemente las investigaciones en derecho. Este libro no es un manual. El lector podrá leerlo como si lo fuera pero es mucho más que eso. Sus capítulos no solamente buscan debatir sobre la investigación sino también comprender y reflexionar por qué investigamos en derecho. Con un impulso de análisis más misceláneo que exhaustivo más de bricolaje que de enciclopedia total y absolutamente organizada, este libro de carácter multifacético interdisciplinario y transformador busca contribuir al desarrollo de futuros proyectos de investigación jurídica. *Corrientes epistemológicas, metodología y prácticas en geografía* Silvia Santarelli, Marta Campos, 2002 **Metodología e**

Epistemologia na Produção Científica Eliseu Diógenes, 2005 **Características y abordajes de los procesos de escritura de géneros académicos** Celia Galvalisi, 2020-05-02 A leer se aprende leyendo. A escribir se aprende escribiendo. A investigar se aprende investigando. Expresiones que conforman principios de la enseñanza en el ámbito de la educación superior teniendo en cuenta como prologa Rodríguez en esta obra el proceso de lingüización en el aprendizaje universitario está aparejado a los contenidos particulares de las lecturas y escrituras también junto al material de las discusiones y de los momentos de reflexión colectiva donde el trabajo de la cátedra debe ser nuestro laboratorio. En suma la mediación lingüística escrita y oral está en la trama de las interacciones educativas de cada materia de una carrera. Este material busca realizar un aporte en este sentido es una orientación para docentes y estudiantes en el proceso de escritura un manual guía. No fue elaborado pensando en un desarrollo teórico científico sobre géneros textuales académicos sino más bien en un aporte conceptual y procedimental de uso a lo largo de la formación y en la instancia de elaboración del trabajo final de grado.

Bases para una sana crítica: lógica, interpretación, argumentación, Máximas de la experiencia, conocimiento científico (un ensayo) René David Navarro Albiña, 2024-10-01 Más que convencer hay que vencer. Bajo esta premisa el autor nos presenta un título destinado a todas las personas ligadas al derecho y que consideran que el manejo óptimo de herramientas argumentativas es clave para el éxito en el ejercicio de su profesión. El texto nos llama a conocer cómo la lógica bien empleada y

los principios de la argumentación judicial en su correcta ejecución pueden ser determinantes en el objetivo de convencer no solo a un magistrado sino a la contraparte y lograr que su posición se invalide al no sustentarse correctamente. Es así como este ensayo nos proporciona una visión sobre la mecánica poder y valor de la persuasión en el derecho entendiendo que todo proceso lógico en la argumentación es parte de un manejo científico que entrega resultados comprobables a la hora de pronosticar el resultado de un hecho.

El genocidio como práctica social Daniel Feierstein, 2022-05-30. En *El genocidio como práctica social* se articulan dos genocidios de modo original: el ejecutado por el nazismo entre 1933 y 1945 con sus diferentes modalidades, objetivos y momentos; y el ocurrido en la Argentina entre 1974 y 1983, antes de y durante la última dictadura militar. La elección de ambos hechos históricos determina una trama narrativa y argumentativa no explicitada con anterioridad en el abordaje de las prácticas genocidas de la segunda mitad del siglo XX. Daniel Feierstein considera que ambos procesos no fueron sucesos excepcionales en la historia contemporánea: productos de meros arrebatos o el retorno del salvajismo y la irracionalidad, sino ejemplos de peculiares tecnologías de poder. Como tales, no se limitaron al aniquilamiento de colectivos humanos; también fueron capaces de reorganizar las relaciones sociales hegemónicas mediante la construcción de una otredad negativa: el hostigamiento, el aislamiento, el debilitamiento sistemático, el aniquilamiento material y la realización simbólica. Luego de legitimar el uso del término genocidio para el caso argentino, el autor propone una nueva tipología de las prácticas sociales genocidas y prueba la continuidad entre el nazismo, primer genocidio reorganizador, y el autodenominado Proceso de Reorganización Nacional. A partir de testimonios de sobrevivientes de ambas experiencias, analiza el dispositivo fundamental de la práctica social genocida: el campo de concentración y sus consecuencias sobre las víctimas directas y sobre el conjunto de la sociedad. Así, en la Argentina de los años ochenta y noventa, la desconfianza hacia el otro, la ausencia de reciprocidad, el terror y el escepticismo para adoptar posiciones críticas fueron los modos sociales hegemónicos. Sin una fuerte transformación de nuestros procesos de construcción identitaria, concluye Feierstein, sin una reformulación de los límites de nuestra responsabilidad ante el otro, sin entender que somos parte inescindible de las prácticas sociales que se desarrollan en las sociedades en las que habitamos y por lo tanto responsables morales por sus efectos, no será viable la posibilidad de desterrar al genocidio.

Itinerarios Del Proyecto 1 - Ficción Epistemológica Jorge Sarquis, 2021-06-01. Este libro posee tres títulos suplementarios que no pretenden cerrarlo en unidad ni agotar su explicación. El principal *Itinerarios* evoca un viaje por los caminos del proyecto sin marcar significados precisos ni recorridos prefijados de probada eficacia para el éxito. Convoca a crear caminos con nuevos sentidos, los invita al riesgo de ver en el viaje mismo. Así llamaban los griegos a la teoría: viajar, volver y ver otra cosa con otros ojos. Si el proyecto es un camino, un método es también un medio para llegar a los objetivos, a los fines anticipados, la forma espacial significativa anhelada. El otro imagina el libro siguiendo la lógica epistémica que con la explicación y la comprensión atrapa y agota el saber de la arquitectura, pero se advierte que finalmente es una ficción de mil puntos de vista. Por último, pensar la Investigación Proyectual como forma de generar conocimientos en los

dominios de la arquitectura es la manera de investigar utilizando el proyecto como herramienta privilegiada. Esto es saber hacer o fabricar realidades a partir del mundo real que se interpreta con reglas y materiales de la arquitectura intencionados por el creador del proyecto. Esta epistemología a este saber le rico no podrá verificarse sino en la acción concreta en el hacer en acto. Y al hacerlo comprobaremos que este saber pretendidamente sólido se lo advierte como una ficción una realidad construida. Se propone como una ficción epistemológica no porque no sea verdad sino porque es una de las muchas verdades posibles de la arquitectura y en su recorrido traicionará siempre y antes que nada a sí misma.

Elementos para una teoría y clínica lacaniana del fenómeno psicossomático Liliana Szapiro, 2020-10-07. En *Elementos para una teoría y clínica lacaniana del fenómeno psicossomático* el lector encontrará principios como nominación sinthome o el goce y formalizaciones como las del nudo borromeo y las fórmulas de la sexualización de los que quizás ya tiene noticias pero la originalidad de este libro radica en presentarlos a través de la clínica. Partiendo de una muestra de más de ochenta casos analizados a lo largo de más de veinte años la autora deduce con soltura abordajes clínicos eficaces a partir de precisas hipótesis teóricas. Estructurado polifónicamente en *Elementos* confluyen el relato de casos los dilemas de su anotación abstracta hay un capítulo al respecto del matemático Carlos Ruiz y la lectura de los pasajes más pertinentes de la enseñanza de Jacques Lacan relativos a la cuestión psicossomática.

The Ancient Andean States Henry Tantaleán, 2020-10-13. *The Ancient Andean States* combines modern social theory recent archaeological literature and the experience of the author to examine politics and power in the great Andean pre-Hispanic societies. The ancient Andean states were the great shapers of Peruvian prehistory. Social complexity architectural monumentality and specialized economic production among others were features of these sophisticated societies known by professionals and travelers from around the world. How and when these states emerged and succeeded is still debated. By examining Andean pre-Hispanic societies such as Caral Sechín Chavín Moche Wari Chimú and Inca this book delves into their political and economic structures as well as explores their ideological worldviews. It reveals how these societies were organized and how different social groups interacted in the states. Archaeologists and anthropologists interested in Peruvian archaeology and the political and social structures of ancient societies will find this book to be a valuable addition to their shelves.

Enseñanza de matemáticas para arquitectos y diseñadores, Nottoli Hernán, 2021-06-01. Este libro está basado en la tesis doctoral de su autor el Dr. Arq. Nottoli. Trabajo en el cual con cierto aire de aventura se desarrolla la simiente de una teoría que la puerta de entrada para los conocimientos matemáticos de los estudiantes de arquitectura y diseño debe centrarse en metodologías que contengan fundamentalmente imágenes y razonamientos topológicos por encima de disquisiciones abstractas y cálculos puramente algebraicos. El texto aporta también la experiencia profesional del autor como arquitecto y docente de matemática y su vocación por tratar de entender los procesos pedagógicos y didácticos que rigen la enseñanza y el aprendizaje. Campo en el que sin ser un experto puede exhibir el tránsito por variados libros especializados cursos y seminarios que sin dudas han sido el aporte que vuelca también en este libro. En los límites de la comunicación** Arturo Borra, 2017-04-25 Poesía como exilio En los límites de la comunicación constituye una exploración de determinadas escrituras poéticas contemporáneas como discursos en exilio estructurados sobre una distancia con respecto a las formas hegemónicas de comunicación La cuestión sin embargo no se agota en unas implicaciones formales y supone una revisión radical del sentido del compromiso poético Una poesía en exilio replantea su vínculo con la sociedad de la que es producto estableciendo una

relación crítica con respecto a las interpretaciones más habituales sobre la realidad histórico social. La regularidad de cierto exilio comunicacional interroga acerca de otro mundo posible y otras formas de convivencia humana aun si ello exige desplazarse hasta los límites de lo indecible.
