Les Compositeurs Et L'art Radiophonique:

Les compositeurs et l'art radiophonique Andrea Cohen, 2015-05-01 Tout au long de son histoire la radio a suscité l'intérêt des compositeurs. Si le médium leur apparaît tout d'abord comme un espace privilégié pour la diffusion de leurs œuvres, il devient galement avec le développement de l'art radiophonique un lieu de création. Pour traiter de la relation des compositeurs et l'art radiophonique cet ouvrage propose un parcours historique suivi d'une réflexion esthétique. Les travaux radiophoniques de Pierre Schaeffer, John Cage, Luciano Berio et Mauricio Kagel sont examinés en détail. **Les**

compositeurs et l'art radiophonique Andréa Cohen, 2005 L'auteur traite de la relation des compositeurs l'art radiophonique. Elle se limite ceux qui consciemment et volontairement ont créé des œuvres pour ce médium. Dans leur confrontation fructueuse avec la radio ils l'approchent d'une manière singulière. Leur relation au sonore joue un rôle de premier plan. Dès lors leur position permet de cerner un des points essentiels de la réflexion l'art radiophonique est-il un art acoustique autonome ou un genre musical? Question qui reste ouverte chaque œuvre apporte elle-même sa propre réponse. Dans un premier temps une présentation historique détaille les différentes positions esthétiques et les productions entre les années 1920 et 1990. L'œuvre radiophonique est ensuite étudiée comme un objet esthétique soumis aux conditions de production de diffusion et de écoute. Les compositeurs y développent des stratégies diversifiées comme le montrent les analyses proposées. Elles révèlent la richesse et l'originalité des procédés compositionnels. La dernière partie, notre pièce *Sports et divertissements* d'Erik Satie ne vise plus seulement une réflexion théorique mais aussi une interprétation personnelle des potentialités créatives du médium. **A**

Revolution in Music Évelyne Gayou, 2025 Established in the 1950s by musician and engineer Pierre Schaeffer the Groupe de Recherches Musicales would become the nerve center for avant garde artists experimenting with sound and acoustics as well as the birthplace of a genre of music making enabled by new recording technologies and sound pioneers. Évelyne Gayou herself a researcher, composer and producer at the GRM tells the history of the storied institution through the people, works, technologies and research developed there. Placing musique concrète within a broad historical context extending from the early twentieth century avant garde's experiments with noise to the development of techniques in sound recording at the Studio d'Essai in the 1940s and later in sound synthesis Gayou shows how recording technology made it possible for composers to not only create music from sounds in the world around them but also create acousmatic music: novel sounds without a visible connection to their source. Available in English translation for the first time this updated edition will be an important resource for readers interested in the pioneering works and techniques of Schaeffer and his contemporaries as well as their influence on the makers of new music and the contemporary avant garde. *Word, Sound and Music in Radio Drama*, 2023-11-27 This collection offers an in-depth study of music's narrative functions in radio drama whether original or adapted alongside speech and sound. It features a range of historical perspectives as well as case studies from Australia, Europe and North America highlighting broadcasting institutions such as the BBC, RAI, ABC, WDR and SWR.

Prejudice and Pride Damien-Claude B'elanger, 2011-01-01 As a country with enormous economic military and cultural power the United States can seem an overwhelming neighbour one that demands consideration by politicians thinkers and cultural figures Prejudice and Pride examines and compares how English and French Canadian intellectuals viewed American society from 1891 to 1945 Based on over five hundred texts drawn largely from the era's periodical literature the study reveals that English and French Canadian intellectuals shared common preoccupations with the United States though the English tended to emphasize political issues and the French cultural issues Damien Claude Belanger's in depth analysis of anti American sentiment during this era divides Canadian thinkers less along language lines and more according to their political stance as right wing left wing or centrist Significantly the era's discourse regarding American life and the Canadian American relationship was less an expression of nationalism or a reaction to US policy than it was about the expression of wider attitudes concerning modernity
