Novel Technologies in the Diagnosis and Management of Sleep-disordered Breathing Henri Korkalainen, Ding Zou, 2024-03-13 Sleep disordered breathing ranging from habitual snoring to severe obstructive sleep apnea is highly prevalent and represents a growing

global healthcare burden Besides disrupting sleep sleep disordered breathing leads to detrimental outcomes such as excessive daytime sleepiness neurocognitive impairment and increased cardiometabolic morbidities The gold standard diagnostic procedures e g in lab polysomnography are cumbersome and standard parameters derived from sleep studies often yield poor long term prognostic value Hence there is a need for innovative diagnostic technologies and novel sleep metrics to enable simple diagnosis and tailored disease management

Intergenerational Wellbeing and Public Policy

Girol Karacaoglu, Jacek B. Krawczyk, Anita King, 2019-01-28 The distinctive contribution of this book is the formulation of an integrated social environmental and economic framework for public policy This contribution is realised through investigations and conclusions in the following four domains a formal stylised model that provides a platform for an integrated approach to public policy a policy informing simulation model that can be used to operationalise the public policy insights proposed in the stylised model the implications of introducing fundamental or radical uncertainty and complexity into the policy framework and the use of viability theory to demonstrate how one can think of and implement public policy in an uncertain and complex world when the focus of policy needs to shift to building resilience to systemic risks The book's stylised model is constructed by weaving together threads from the wellbeing human needs complex systems sustainable development endogenous economic growth directed technical change and credit based money literatures Throughout the perspective is that of a policy adviser to a wellbeing state as distinct from a welfare state The key linkages or relationships in the model are supported by empirical evidence that draws on the wider literature in related fields
