Empire By Treaty Negotiating European Expansion 1600 19:

Empire by Treaty Saliha Belmessous, 2014-10-30 Most histories of European appropriation of indigenous territories have until recently focused on conquest and occupation while relatively little attention has been paid to the history of treaty making Yet treaties were also a means of extending empire To grasp the extent of European legal engagement with indigenous peoples **Empire by Treaty Negotiating European Expansion 1600 1900** looks at the history of treaty making in European empires Dutch Spanish Portuguese French and British from the early 17th to the late 19th century that is during both stages of European imperialism While scholars have often dismissed treaties assuming that they would have been fraudulent or unequal this book argues that there was more to the practice of treaty making than mere commercial and political opportunism Indeed treaty making was also promoted by Europeans as a more legitimate means of appropriating indigenous sovereignties and acquiring land than were conquest or occupation and therefore as a way to reconcile expansion with moral and juridical legitimacy As for indigenous peoples they engaged in treaty making as a way to further their interests even if on the whole they gained far less than the Europeans from those agreements and often less than they bargained for The vexed history of treaty making presents particular challenges for the great expectations placed in treaties for the resolution of conflicts over indigenous rights in post colonial societies These hopes are held by both indigenous peoples and representatives of the post colonial state and yet both must come to terms with the complex and troubled history of treaty making over 300 years of empire **Empire by Treaty** looks at treaty making in Dutch colonial expansion the Spanish Portuguese border in the Americas aboriginal land in Canada French colonial West Africa and British India

Empire by Treaty Saliha Belmessous, 2015 **Empire by Treaty Negotiating European Expansion 1600 1900** includes indigenous voices in the debate over European appropriation of overseas territories It is concerned with European efforts to negotiate with indigenous peoples the cession of their sovereignty through treaties

Empire, Incorporated Philip J. Stern, 2023-05-16 Brilliant ambitious and often surprising A remarkable contribution to the current global debate about Empire and a small masterpiece of research and conceptual reimagining William Dalrymple author of *The Anarchy* *The East India Company* *Corporate Violence* and *The Pillage of an Empire* An award winning historian places the corporation more than the Crown at the heart of British colonialism arguing that companies built and governed global empire raising questions about public and private power that were just as troubling four hundred years ago as they are today Across four centuries from Ireland to India the Americas to Africa and Australia British colonialism was above all the business of corporations Corporations conceived promoted financed and governed overseas expansion making claims over territory and peoples while ensuring that British and colonial society were invested quite literally in their ventures Colonial companies were also relentlessly controversial frequently in debt and prone to failure The corporation was well suited to overseas expansion not because it was an inevitable juggernaut but because like empire itself it was an elusive contradiction public and private person and

society subordinate and autonomous centralized and diffuse immortal and precarious national and cosmopolitan a legal fiction with very real power Breaking from traditional histories in which corporations take a supporting role by doing the dirty work of sovereign states in exchange for commercial monopolies Philip Stern argues that corporations took the lead in global expansion and administration Whether in sixteenth century Ireland and North America or the Falklands in the early 1980s corporations were key players And as Empire Incorporated makes clear venture colonialism did not cease with the end of empire Its legacies continue to raise questions about corporate power that are just as relevant today as they were 400 years ago Challenging conventional wisdom about where power is held on a global scale Stern complicates the supposedly firm distinction between private enterprise and the state offering a new history of the British Empire as well as a new history of the corporation

Dancing in Shadows Anna Haebich, 2018 Dancing in Shadows explores the power of Indigenous performance pitted against the forces of settler colonisation Historian Anna Haebich documents how the Nyungar people of Western Australia strategically and courageously adapted their rich performance culture to survive the catastrophe that engulfed them and continue to generously share their culture history and language in theatre In public corroborees they performed their sovereignty to the colonists and in community only gatherings they danced and sang to bring forth resilience and spiritual healing Pushed away by the colonists and denied their culture and lands they continued to live and perform in the shadows over the years in combinations of the old and the new including indigenised settler songs and dances Nyungar people survived and they now number around 40 000 people and constitute the largest Aboriginal nation in the Australian settler state The ancient family lineages live in city suburbs and country towns and they continue to perform to celebrate their ancestors and to strengthen community well being by being together Dancing in Shadows sheds light on the little known history of Nyungar performance Subject Theatre Studies Sociology History Australian History Aboriginal Studies

Migration at the End of Empire Joseph John Viscomi, 2024-06-06 How has migration shaped Mediterranean history And what role did conflicting temporalities and the politics of departure play in the age of decolonisation Using a microhistorical approach Migration at the End of Empire explores the experiences of over 55 000 Italian subjects in Egypt during the late nineteenth and twentieth centuries Before 1937 Ottoman era legal regimes fostered the coupling of nationalism and imperialism among Italians in Egypt particularly as the fascist government sought to revive the myth of *Mare Nostrum* With decolonisation however Italians began abandoning Egypt en masse By 1960 over 40 000 had deserted Egypt some as emigrants others as repatriates and still others as national refugees The departed community became an emblem around which political actors in post colonial Italy and Egypt forged new ties Anticipated actual and remembered departures of Italians from Egypt are at the heart of this book s ambition to rethink European and Mediterranean periodisation

Protection and Empire Lauren Benton, Adam Clulow, Bain Attwood, 2018 This book situates protection at the centre of the global history of empires thus advancing a new perspective on world history *Handbook on Global Constitutionalism*

Anthony F. Lang,Antje Wiener,2023-11-03 This thoroughly revised Handbook presents an up to date political and philosophical history of global constitutionalism By exploring the constitutional like qualities of international affairs it provides key insight into the evolving world order *The Political Economy of the Interior Gold Coast* Jarvis L.

Hargrove,2015-12-09 This book analyzes the Gold Coast and the Asante kingdom in the years following the abolition of the transatlantic slave trade and prior to the start of colonial rule The Asante state one of the largest in the Gold Coast and West Africa after the eighteenth century is the central focus of this work Studying their transition from a large scale supplier of captives to the transatlantic slave trade to traders in legitimate goods is a critical component that should be analyzed across West Africa This work highlights the political and economic relationships between the interior Asante state with surrounding African groups and Europeans chiefly British traders who entered the region in the eighteenth and nineteenth centuries

Envisioning Empire James M. Vaughn,Robert A. Olwell,2019-11-28 Examining the pivotal period between the end of the Seven Years War and the dawn of the American Revolution Envisioning Empire reinterprets the development of the British Empire in the 18th century With exceptional geographical scope this book provides new ways of understanding the actors and events in many imperial arenas including West Africa North America the Caribbean and South Asia While 1763 has long been seen as marking a turning point in British and British colonial history Envisioning Empire treats this epochal year and the decade that followed as constituting a discrete moment in Imperial history that is significant in its own right Exploring the programs and plans that sought to incorporate the vast new territories and millions of new subjects into the British state and imperial system it demonstrates how the period between the end of the Seven Years War and the beginning of the American Revolution was one of contested ideas about the future of British overseas expansion By examining these competing imperial visions and designs from the perspective of Britain s new subjects as well as from that of British ministers Envisioning Empire both illuminates and complicates the boundaries that have been drawn between the first and second British empires and reveals how the Empire was being conceived discussed and debated during an era of rapid transformation **History of Ashanti by Otumfuo, Nana Osei Agyeman Prempeh II** Tom C McCaskie,2022-10-31 A

history of Asante from the late 17th century to the 1930s authorized and produced by the 12th Asantehene Osei Agyeman Prempeh II Perhaps the single longest historical work produced by a ruler of any sub Saharan African society this is an indigenous account of the three hundred year history of a still vigorous African polity **Sensitive Negotiations** Nikki Hessell,2021-08-01 Throughout the nineteenth and early twentieth centuries Indigenous peoples in North America and the Pacific engaged with the latest and most fashionable British Romantic poetry as part of transcontinental and transoceanic cross cultural negotiations about sovereignty treaty rights and land claims In Sensitive Negotiations Nikki Hessell uses examples from North America Africa and the Pacific to show how these Indigenous figures quoted lines from famous poets like Lord Byron and Felicia Hemans to build sympathy and community with their audience Hessell makes new connections by

setting aside European derived genre barriers to bring literary studies to bear on the study of diplomacy and scholarship from diplomatic history and Indigenous studies to bear on literary criticism By connecting British Romantic poetry with Indigenous diplomatic texts artefacts and rituals Hessel reimagines poetry as diplomatic and diplomacy as poetic

Rage for Order Lauren Benton, Lisa Ford, 2016-10-03 International law burst on the scene as a new field in the late nineteenth century Where did it come from *Rage for Order* finds the origins of international law in empires especially in the British Empire's sprawling efforts to refashion the imperial constitution and use it to order the world in the early part of that century *Rage for Order* is a book of exceptional range and insight Its successes are numerous At a time when questions of law and legalism are attracting more and more attention from historians of 19th century Britain and its empire but still tend to be considered within very specific contexts its sweep and ambition are particularly welcome *Rage for Order* is a book that deserves to have major implications both for international legal history and for the history of modern imperialism Alex Middleton Reviews in History *Rage for Order* offers a fresh account of nineteenth century global order that takes us beyond worn liberal and post colonial narratives into a new and more adventurous terrain Jens Bartelson Australian Historical Studies

The Long Conquest Sanghamitra Misra, 2024-04-30 This book is an enquiry into the elision of the figure of the sovereign cotton producing Garo in the colonial archive and its savage transformation into imperialism's quintessential primitive in the period between 1760 CE and 1900 CE The precolonial political economy of hill cotton produced by the Garos its unhinging from the exercise of Garo sovereignty and its eventual commodification twined with the deterritorialization of the community as it made way for elephant mehals and reserved forests form the kernel of the book This history is seen as participating in and mirroring analogous processes of colonization across vast contiguous swathes of India including Mymensingh Chittagong Bhagalpur the Khasi hills and the Cachar valley A central theme explored is the long history of Garo rebellions and their rationality examined in conjunction with contiguous polities such as that of the Khasis even as the book follows the growing arc of colonial power in eastern and northeastern India as it converted territory and revenue appropriated through conquest into dominium The book makes an original contribution to the historiography of the colonial state the tribe and primitivism by making a case for the welded histories of war ethnogenesis revenue extraction and

anthropological knowledge otherwise often studied as disparate fields of scholarship It therefore also offers a new interpretation of the history of the colonization of eastern and northeastern India The book will be of interest to academics and researchers of these regions and of empire and political economy law and primitivism and anthropology and colonial revenue *International Cooperation in the Early Twentieth Century* Daniel Gorman,2017-09-21 The early 20th century world experienced a growth in international cooperation Yet the dominant historical view of the period has long been one of national military and social divisions rather than connections *International Cooperation in the Early Twentieth Century* revises this historical consensus by providing a more focused and detailed analysis of the many ways in which people interacted with each other across borders in the early decades of the 20th century It devotes particular attention to private and non governmental actors Daniel Gorman focuses on international cooperation international social movements various forms of cultural internationalism imperial and anti imperial internationalism and the growth of cosmopolitan ideas The book incorporates a non Western focus alongside the transatlantic core of early 20th century internationalism It interweaves analyses of international anti colonial networks ideas emanating from non Western sites of influence such as Japan China and Turkey the emergence of networks of international indigenous peoples in resistance to a state centric international system and diaspora and transnational ethno cultural religious identity networks **Financing Sovereignty** Damian

Clavel,2025-08-12 *Financing Sovereignty* rewrites the story of one of the great financial frauds of the nineteenth century Gregor MacGregor a Scottish mercenary and self proclaimed cacique of Poyais borrowed massive sums on the City of London s burgeoning South American sovereign debt market by selling bonds of the State of Poyais The only problem Poyais did not exist At least that is what MacGregor was quickly accused of by the press and public opinion at the time From then on MacGregor has embodied the figure of the swindler par excellence the con artist behind the most audacious financial fraud in history In Damian Clavel s deeply researched retelling of the Poyais story MacGregor is less an unscrupulous adventurer aiming to defraud English investors than a luckless intermediary between Indigenous Miskitu elites and British financiers From the coasts of Moskitia to the trading floors of London Clavel traces the genesis development and downfall of the Poyais project detailing how these events were the outcome of a failed attempt to finance the making of a new country in Central America A microhistory set against the backdrop of global history *Financing Sovereignty* offers a new lens through which to view the political economic legal and social dynamics of the nineteenth century revolutionary financial and imperial transformations that took place across the Atlantic **The Acquisition of Africa (1870-1914)** Mieke van der

Linden,2016-10-05 Over recent decades the responsibility for the past actions of the European colonial powers in relation to their former colonies has been subject to a lively debate In this book the question of the responsibility under international law of former colonial States is addressed Such a legal responsibility would presuppose the violation of the international law that was applicable at the time of colonization In the Scramble for Africa during the Age of New Imperialism 1870 1914

European States and non State actors mainly used cession and protectorate treaties to acquire territorial sovereignty imperium and property rights over land dominium The question is raised whether Europeans did or did not on a systematic scale breach these treaties in the context of the acquisition of territory and the expansion of empire mainly through extending sovereignty rights and subsequently intervening in the internal affairs of African political entities Locating the Global Holger Weiss,2020-08-10 This volume adds to the plurality of global histories by locating the global through its articulation and manifestation within particular localities It accomplishes this by bringing together interlinked case studies that analyse various temporal and spatial dimensions of the global in the local and the interactions between the local and the global The case studies apply a spatial approach to analyse how global questions of space movement networks borders and territory are worked out at a local level The material draws on the Nordic countries Europe the Atlantic world Africa and Australia and ranges from the seventeenth to the twentieth century It is further divided into sections that address topics such as the translocality of humans and goods local articulations of identities and globalities parliamentarism and anti colonialism the organization of knowledge and the construction of spaces of representation and memory **Agrarian Crisis in the United States** Anthony Pahnke,2023-04-14 From fragile corporate controlled supply chains breaking down to millions of already hyper exploited farmworkers risking their lives in the fields without basic personal protective equipment the COVID 19 pandemic made it painfully obvious that US agriculture does not work Agrarian Crisis in the United States Pathways for Reform situates the many food system problems that the COVID 19 pandemic laid bare in historical context across four key policy areas namely in land labor markets and the environment In applying and building from the work of J rgen Habermas Agrarian Crisis in the United States highlights how deep seated problems concerning systemic racism economic inequality and political legitimacy endanger the US food and farm system s future Besides analyzing crises it presents solutions that would make agriculture in the United States more just and resilient through the implementation of certain communication and policy strategies Its original argument as well as a novel set of remedies will appeal to scholars and activists with interests in agrarian studies environmental policy and social movements *Africans in Exile* Nathan Riley Carpenter,Benjamin N. Lawrance,2018-09-10 This rich volume will interest scholars and students of Africa the African diaspora world history legal history and international affairs Lorelle Semley author of To Be Free and French Citizenship in France s Atlantic Empire The enforced removal of individuals has long been a political tool used by African states to create generations of asylum seekers refugees and fugitives Historians often present such political exile as a potentially transformative experience for resilient individuals but this reading singles the exile out as having an exceptional experience This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples The works collected in this volume seek to recover the diversity of exile experiences across the continent This corpus of testimonials and documents is presented as an archive

that provides evidence of a larger shared experience of persecution and violence This consideration reads exiles from African colonies and nations as active participants within rather than simply as victims of the larger global diaspora In this way exile is understood as a way of asserting political dissidence and anti imperial strategies Broken into three distinct parts the volume considers legal issues geography as a strategy of anticolonial resistance and memory and performative understandings of exile The experiences of political exile are presented as fundamental to an understanding of colonial and postcolonial oppression and the history of state power in Africa
