Publishing Editor *Semantic Web Services and Web Process Composition* Jorge Cardoso, Amit Sheth, 2005-01-17

This book constitutes the refereed proceedings of the 1st International Workshop on Semantic Web Services and Web Process Composition SWSWPC 2004 held at the Westin Horton Plaza Hotel San Diego California USA July 6 2004 in conjunction with the IEEE International Conference on Web Services ICWS 2004. The workshop intended to bring researchers scientists from both industry and academics and representatives from different communities together to study, understand and explore the phases that compose the lifecycle of Semantic Web processes. The workshop presented what can be achieved by the symbiosis of two of the hottest R D and technology application areas: Web services and the Semantic Web as recognized at the 12th International World Wide Web conference WWW 2003 and in the industry press. The emphasis of the workshop was mainly on Web services, Web processes and semantics, which are important movements emerging in the World Wide Web. Web services and Web processes promise to ease several current infrastructure challenges such as data application and process integration. Web services are truly platform independent and allow the development of distributed, loosely coupled applications, a key characteristic for the success of dynamic Web processes. **Rational Application Developer V7.5**
