

Controller CSU 502

Description

The Delta CSU 502 controller is the solution for small power systems. The advanced battery management with capacity test and flexible supervision of system components make it easy to monitor system availability and plan site visits in a cost effective manner.

Remote monitoring and alarming, and consequent cost savings are ensured with potential-free relay contacts, and can be enhanced with an optional LAN/SNMP card. The USB port offers user-friendly interface with Delta RMS software for local communication with PC.

Main features

- Optimized and compact power system controller
- User interface with LCD display and control stick
- User configurable alarms and settings
- Advanced battery management and testing

Applications

CSU 502 is used in Delta CelID and OutID systems for:

- Network base stations
- Wireless applications
- Fixed line applications, data communications

Delta's advanced supervision units make it easy to measure, monitor and control your power system operations.

Delta controllers are the intelligence of power systems enabling significant cost savings in both OPEX and CAPEX. Cumulative cost savings of genset downsizing or remote monitoring possibilities can be substantial. Delta controllers deliver the benefits modern technology can offer.
