The English Baccalaureate Great Britain: Parliament: House of Commons: Education Committee,2011-07-28 This report suggests that any new performance or curriculum measures affecting schools should only be implemented after proper consultation with key stakeholders and the wider public something which didn t happen with the English Baccalaureate EBac The Committee says that the Government should also have waited until after the conclusion of the National Curriculum Review before introducing the EBac They want the Government to deliver on its promise in the White Paper The Importance of Teaching to use performance tables to put greater emphasis on the progress of every child The report notes that certain

academic subjects studied at A level are more valued by Russell Group universities than others but argues that a focus on a fairly narrow range of subjects demanding considerable curriculum time is likely to have negative consequences on the uptake of other subjects The Committee does not make recommendations on which subjects should or should not be included but rather encourages the Government to reconsider the EBac s composition when the National Curriculum Review is concluded The Government should confirm how it will monitor the attainment of children on free school meals in the EBac The report also calls for further international evidence to inform debate on the merits of the EBac evidence the inquiry received did not suggest a link in other countries between the prescribed study of certain academic subjects and improved attainment and prospects for poorer students Elsewhere the report argues that the current arrangements for certification of the EBac should be shelved as should calls for a Technical Baccalaureate to sit alongside the existing award The EU Charter of Fundamental Rights Steve Peers,Tamara Hervey,Jeff Kenner,Angela Ward,2021-11-18 this most thorough commentary must be regarded as the Bible on the Charter Peter Oliver Common Market Law Review This second edition of the first commentary of the EU Charter of Fundamental Rights in English written by experts from several EU Member States provides an authoritative but succinct statement of how the Charter impacts upon EU domestic and international law Following the conventional article by article approach each commentator offers an expert view of how each article is either already being interpreted in the courts or is likely to be interpreted Each commentary is referenced to the case law and is augmented with extensive references to further reading This is a much welcomed new edition of the authoritative guide to the Charter **R Markdown** Yihui Xie,J.J.
