The Many Roles of the Registered Nurse Debra J. Gillespie, 2020-12-16

Nurses are the largest population of healthcare providers practicing in both urban and remote areas across the globe. Currently the nursing profession is in the midst of a significant shortage as aging baby boomers retire and a nursing faculty shortage forces many colleges and universities to turn away qualified applicants. As healthcare needs of the population become more complex and technologies advance, our world needs nurses now more than at any other time in history. This book provides the reader with a wide overview of the many vast roles within the nursing profession, showing that the responsibilities are complex, challenging, and rewarding. It will allow the reader to understand the current job market for nurses and perhaps even persuade some to choose this rewarding profession.

Bomber Harris John Grehan, Martin Mace, 2014-04-22

The bombing campaign conducted against Germany and German-occupied Europe in the Second World War was and remains one of the most controversial operations of the entire war. Much of Bomber Command's effort was what was defined as area bombing, in which whole cities or districts were targeted. The ultimate aim of an attack on a town area, Sir Arthur Harris wrote in one of his despatches, is to break the morale of the population, which occupies it, namely to produce i) destruction and ii) fear of death. This strategy was so successful it almost brought Germany to the point of collapse until Churchill worried about the devastation it was causing and the number of civilian deaths, which resulted, ordered it to cease. Harris's despatches explain in great detail the success of his methods, which, if given full reign, may have brought the war to a speedier conclusion but would have meant even more German casualties. Such was the controversy surrounding Bomber Command's operations, Harris's despatches were not published by the government, even though the despatches of every other branch of the armed services and all of their operations were made public. The full text of Harris's despatches is reproduced here along with an explanation why these documents were withheld for so many years.
