Think don't worry about your personality but rather in the end you will but surely making money a lot for yourself. The brain is like any other body and habits in the end become good things. For example, you don't know how to dieting or you don't learn to drive a car in the first place. The knowledge to getting started is small and let's ring a very important mindset: it's not about making huge savings all the time but in implementing a small rule in the end every little adds up. This principle is the most important thing to get into a habit of saving money. Let's say for that 100 dollars put in your saving account will not do the trick especially if you are not a money saver. Making a habit of small saving or not much for the time being will help you will build a habit which would transform into a big result over a period of time. You have to train your brain in the end to ring your saving habit. Making a habit. And like nothing else in life, you have to train your mind to learn from your mistakes and persevere to make saving a habit and part of your saving habit. The fruit of your labor.
