The Routledge International Handbook of Research on Dialogic Education Neil Mercer, Rupert Wegerif, Louis Major, 2019-09-26 The Routledge International Handbook of Research on Dialogic Education provides a comprehensive overview of the main ideas and themes that make up the exciting and diverse field of Dialogic Education. With contributions from the world's leading researchers, it describes underpinning theoretical approaches, debates, methodologies, evidence of impact, how Dialogic Education relates to different areas of the curriculum, and ways in which work in this field responds to the profound educational challenges of our time. The handbook is divided into seven sections covering: The theory of Dialogic Education; Classroom dialogue; Dialogue, teachers and professional development; Dialogic Education for literacy and language; Dialogic Education and digital technology; Dialogic Education in science and mathematics; Dialogic Education for transformative purposes. Expertly written and researched, the handbook marks the coming of age of Dialogic Education as an important and distinctive area of applied educational research. Featuring chapters from authors working in different educational contexts around the world, the handbook is of international relevance and provides an invaluable resource for researchers and students concerned with the study of educational dialogue and allied areas of socio-cultural research. It will interest students on PhD programmes in Education; Faculties Master's level courses in Education and postgraduate teacher training courses. The accounts of results achieved by high impact research projects around the world will also be very valuable for policy makers and practitioners.

Handbook of Self-Regulation of Learning and Performance Dale H. Schunk, Barry Zimmerman, 2011-05-15 Self-regulated learning or self-regulation refers to the process whereby learners personally activate and sustain cognitions, affects, and behaviours that are systematically oriented toward the attainment of learning goals. This is the first volume to integrate into a single volume all aspects of the field of self-regulation of learning and performance: basic domains, applications to content areas, instructional issues, methodological issues, and individual differences. It draws on research from such diverse areas as cognitive, educational, clinical, social, and organizational psychology. Distinguishing features include: Chapter Structure To ensure uniformity and coherence across chapters, each chapter author addresses the theoretical ideas underlying their topic, research evidence bearing on these ideas, future research directions, and implications for educational practice. International Because research on self-regulation is increasingly global, a significant number of international contributors are included. See table of contents. Readable In order to make the book accessible to students, chapters have been carefully edited for clarity, conciseness, and organizational consistency. Expertise All chapters are written by leading researchers from around the world who are highly regarded experts on their particular topics and are active contributors to the field.
