

# STATES OF MATTER: LESSON PLAN

## MATERIALS

- Ice in a small container
- Clear plastic cups
- Syringes filled with water and isopropyl alcohol
- Paper and pens
- Water (100 ml for each group)
- Ice cubes
- Worksheet copies

## OBJECTIVES: AT THE END OF THE LESSON, THE STUDENTS SHOULD BE ABLE TO:

- Identify the phases of matter and its properties: solid, liquid, and gas
- Understand that matter can change its phase when heat or energy is added or removed

## COMPELLING AND SUPPORTING QUESTIONS TO GUIDE INQUIRY

- What happens to water when it turns to ice?
- When water evaporates, what becomes of its properties?

## PROCEDURES

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
